BRUNSWICK CORPORATION
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Note 1 – Significant Accounting Policies

Interim Financial Statements. Brunswick's ("Brunswick" or "the Company") unaudited interim condensed consolidated financial statements have been prepared pursuant to Securities and Exchange Commission ("SEC") rules and regulations. Therefore, certain information and disclosures normally included in financial statements and related notes prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been condensed or omitted.

These financial statements should be read in conjunction with, and have been prepared in conformity with, the accounting principles reflected in the consolidated financial statements and related notes included in Brunswick's 2021 Annual Report on Form 10-K for the year ended December 31, 2021 ("the 2021 Form 10-K"). These results include, in management's opinion, all normal and recurring adjustments necessary to present fairly Brunswick's financial position, results of operations and cash flows. Due to the seasonality of Brunswick's businesses, the interim results are not necessarily indicative of the results that may be expected for the remainder of the year.

The Company maintains its financial records on the basis of a fiscal year ending on December 31, with the fiscal quarters spanning approximately thirteen weeks. The first quarter ends on the Saturday closest to the end of the first thirteen-week period. The second and third quarters are thirteen weeks in duration and the fourth quarter is the remainder of the year. The second quarter of fiscal year 2022 ended on July 2, 2022 and the second quarter of fiscal year 2021 ended on July 3, 2021.

Recently Adopted Accounting Standards

Revenue Contracts Acquired in Business Combinations: In October 2021, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2021-08, *Accounting for Contract Assets and Contract Liabilities From Contracts With Customers*, which amended the guidance in Accounting Standards Codification ("ASC") 805 to require that the acquirer recognize and measure contract assets and contract liabilities acquired in a business combination in accordance with ASC 606. The Company early adopted the guidance in ASU 2021-08 on July 2, 2022. The adoption of this standard did not have a material impact on the consolidated financial statements.

Recently Issued Accounting Standards

Fair Value Hedge Accounting: In March 2022, the FASB issued ASU 2022-01, *Fair Value Hedging — Portfolio Layer Method*, which clarifies the guidance in ASC 815 on fair value hedge accounting of interest-rate risk for portfolios of financial assets. ASU 2022-01 amends the guidance that established the “last-of-layer” method for making the fair value hedge accounting for these portfolios more accessible. The amendment is effective for financial statements for interim and annual periods beginning after December 15, 2022. The adoption of this standard is not expected to have a material impact on the Company's consolidated financial statements.

Note 2 – Revenue Recognition

The following table presents the Company's revenue in categories that depict how the nature, amount, timing, and uncertainty of revenue and cash flows are affected by economic factors:

As of December 31, 2021, $142.1 million of contract liabilities associated with extended warranties and customer deposits were reported in Accrued expenses and Other Long-term liabilities, of which $10.5 million and $24.8 million were recognized as revenue during the three and six months ended July 2, 2022, respectively. As of July 2, 2022, total contract liabilities were $181.2 million. The total amount of the transaction price allocated to unsatisfied performance obligations as of July 2, 2022 was $168.9 million for contracts greater than one year, which primarily relates to extended warranties. The Company expects to recognize $29.2 million of this amount in the second half of 2022, $50.2 million in 2023, and $89.5 million thereafter.

Note 3 – Acquisitions

2022 Acquisitions

During the second quarter of 2022, the Company acquired certain Freedom Boat Club franchise operations and territory rights as well as certain marine assets in the Southeast United States. These acquisitions enable opportunities across a wide spectrum, building upon the growth Brunswick has cultivated throughout the Company's shared access portfolio and new digital platforms. These acquisitions are included as part of the Company's Boat segment.

The Company paid net cash consideration of $95.7 million for these acquisitions. The opening balance sheets, which are preliminary and subject to change in the measurement period as the Company finalizes the purchase price allocation and fair value estimates, include $79.5 million of goodwill and $9.1 million of customer relationships. The amount assigned to customer relationships will be amortized over the estimated useful life of 10 years. Transaction costs associated with these acquisitions of $1.2 million were expensed as incurred within Selling, general and administrative expense during the six months ended July 2, 2022. The acquisitions are not material to the Company's net sales, results of operations, or total assets during any period presented. Accordingly, the Company's consolidated results of operations do not differ materially from historical performance as a result of the acquisitions, and pro forma results are not presented.

2021 Acquisitions

On October 4, 2021, the Company acquired all the issued and outstanding shares of Marine Innovations Group AS, known as "Navico", for $1.094 billion net cash consideration. The Company used a combination of the notes issued in the third quarter of 2021 and cash on hand to fund the acquisition.

Navico was a privately held global company based in Egersund, Norway, and is a global leader in marine electronics and sensors, including multi-function displays, fish finders, autopilots, sonar, radar, and cartography. The acquisition of Navico accelerates the Company's ACES ("Autonomy, Connectivity, Electrification, and Shared access") strategy and strengthens the Company's ability to provide complete, innovative digital solutions to consumers and comprehensive, integrated system offerings to the Company's original equipment manufacturer customers. Navico is managed as part of the Company's Parts & Accessories segment.

The Company used the acquisition method of accounting in accordance with ASC 805, *Business Combinations*, with Brunswick being the acquiring entity, and reflecting estimates and assumptions deemed appropriate by Company management.

Notes to Condensed Consolidated Financial Statements
(unaudited)

The purchase price allocation for certain deferred tax balances and contingency reserves is preliminary and subject to change within the allowed measurement period as the Company finalizes its fair value estimates. The following table is a summary of the assets acquired, liabilities assumed and net cash consideration paid, net of cash acquired, for the Navico acquisition:

(in millions)	Fair Value	Useful Life
Accounts and notes receivable	$ 59.3	
Inventory	161.7	
Goodwill [(A)] [(B)]	437.0	
Trade names	133.0	Indefinite
Developed technology	160.0	15 years
Customer relationships	185.0	15 years
Property and equipment	46.1	
Other assets	26.9	
Total assets acquired	1,209.0	
Accounts payable	66.0	
Accrued expenses [(B)]	46.6	
Other liabilities	24.0	
Total liabilities assumed	136.6	
Net cash consideration paid, net of cash acquired	$ 1,072.4	

(A) The goodwill recorded for the acquisition of Navico is partially deductible for tax purposes.
(B) Includes $1.5 million of purchase accounting adjustments for the six months ended July 2, 2022 related to contingency reserves.

Pro Forma Financial Information (Unaudited)

The pro forma information has been prepared as if the Navico acquisition and the related debt financing had occurred on January 1, 2021. These pro forma results are based on estimates and assumptions which the Company believes to be reasonable. They are not the results that would have been realized had the acquisition actually occurred on January 1, 2021 and are not necessarily indicative of Brunswick's consolidated net earnings in future periods. The pro forma results include adjustments primarily related to the amortization of intangible assets and interest expense on the notes issued in the third quarter of 2021. Additionally, non-recurring pro forma adjustments include transaction costs of $0.8 million and $14.8 million and expenses related to inventory fair value adjustments of $9.0 million and $18.1 million for the three and six months ended July 3, 2021, respectively, recognized as part of the application of purchase accounting.

	Three Months Ended		Six Months Ended	
(in millions)	July 2, 2022	July 3, 2021	July 2, 2022	July 3, 2021
Pro forma Net sales	**$ 1,835.6**	$ 1,683.8	**$ 3,531.3**	$ 3,257.7
Pro forma Net earnings	**197.9**	180.8	**379.4**	353.9

The pro forma results reflect a statutory income tax rate of 21 percent for the three and six months ended July 2, 2022 and July 3, 2021.

Other 2021 Acquisitions

On September 1, 2021, the Company acquired substantially all the net assets of RELiON Battery, LLC ("RELiON"). RELiON is a global provider of lithium batteries and related products to multiple industry sectors. The acquisition of RELiON complements the Company's existing portfolio of advanced battery and power management brands. On September 17, 2021, the Company acquired substantially all the net assets of SemahTronix, LLC, a global supplier of high-complexity electrical wiring harnesses for advanced products in the marine, mobile, and defense industries. The acquisition of the SemahTronix assets enhances the Company's integrated systems offerings by providing the Company's ASG organization and the Company's global customers access to high-quality, large, complex electrical wire harnessing systems that further enable the Company's end-to-end systems solutions and capabilities. These acquisitions are included as part of the Parts & Accessories segment.

On July 9, 2021, the Company acquired Fanautic Club, one of the largest European boat clubs with 23 locations in major coastal cities and tourist centers across Spain. The Company also acquired certain Freedom Boat Club franchise operations and territory rights in the United States during 2021. Acquiring such assets enables Brunswick to accelerate growth by increasing its investments in these markets. These acquisitions are included as part of the Boat segment.

The Company paid net cash consideration of $66.2 million for these acquisitions. The opening balance sheets include $36.8 million of goodwill and $24.1 million of identifiable intangible assets, including customer relationships and trade names of $17.2 million and $6.9 million, respectively. The amount assigned to customer relationships will be amortized over the estimated useful life of 10 years. These acquisitions are not material to the Company's net sales, results of operations or total assets during any period presented. Accordingly, the Company's consolidated results of operations do not differ materially from historical performance as a result of the acquisitions, and pro forma results are not presented.

Note 4 – Financial Instruments

The Company operates globally with manufacturing and sales facilities around the world. Due to the Company’s global operations, the Company engages in activities involving both financial and market risks. The Company utilizes normal operating and financing activities, along with derivative financial instruments, to minimize these risks. See Note 14 in the Notes to Consolidated Financial Statements in the 2021 Form 10-K for further details regarding the Company's financial instruments and hedging policies.

Cross-Currency Swaps. The Company enters into cross-currency swaps to hedge Euro currency exposures of the net investment in certain foreign subsidiaries. As of July 2, 2022, December 31, 2021 and July 3, 2021, the notional value of cross-currency swap contracts outstanding were $250.0 million, $200.0 million and $200.0 million, respectively. The cross-currency swaps were designated as net investment hedges, with the amount of gain or loss associated with the change in fair value of these instruments deferred in Accumulated other comprehensive loss and recognized upon termination of the respective investment. In the first quarter of 2022, the Company settled $200.0 million of cross-currency swap contracts resulting in a deferred gain of $16.7 million within Accumulated other comprehensive loss.

Commodity Price. The Company uses commodity swaps to hedge anticipated purchases of aluminum. As of July 2, 2022, December 31, 2021 and July 3, 2021, the notional value of commodity swap contracts outstanding was $22.6 million, $25.3 million and $11.2 million, respectively, and the contracts mature through 2023. The amount of gain or loss associated with the change in fair value of these instruments is deferred in Accumulated other comprehensive loss and recognized in Cost of sales in the same period or periods during which the hedged transaction affects earnings. As of July 2, 2022, the Company estimates that, during the next 12 months, it will reclassify approximately $2.2 million in net losses (based on current prices) from Accumulated other comprehensive loss to Cost of sales.

Foreign Currency Derivatives. Forward exchange contracts outstanding at July 2, 2022, December 31, 2021 and July 3, 2021 had notional contract values of $650.0 million, $519.8 million and $481.1 million, respectively. The forward contracts outstanding at July 2, 2022 mature through 2023 and mainly relate to the Euro, Australian dollar, Canadian dollar, and Japanese yen. As of July 2, 2022, the Company estimates that during the next 12 months, it will reclassify approximately $23.4 million of net gains (based on current rates) from Accumulated other comprehensive loss to Cost of sales.

Interest Rate Derivatives. During the first quarter of 2021, the Company entered into forward-starting interest-rate swaps to hedge the interest-rate risk associated with anticipated debt issuances. On August 4, 2021, the Company settled these interest-rate swaps, resulting in a net deferred loss of $1.6 million. As a result, there were no forward-starting interest-rate swaps outstanding as of July 2, 2022 and December 31, 2021. As of July 3, 2021, the outstanding forward-starting interest-rate swaps had a total notional contract value of $150.0 million.

During the first quarter of 2022, the Company entered into and settled a series of treasury-lock swaps to hedge the interest-rate risk associated with debt issuances, resulting in a net deferred gain of $5.1 million. As a result, there were no treasury-lock swaps outstanding as of July 2, 2022, December 31, 2021 or July 3, 2021.

The Company had net deferred gains (losses) associated with the forward-starting interest-rate swaps and treasury-lock swaps discussed above of $ 3.0 million, $(2.4) million, and $1.7 million as of July 2, 2022, December 31, 2021, and July 3, 2021, respectively. These instruments were designated as cash flow hedges with gains and losses included in Accumulated other comprehensive loss. As of July 2, 2022, the Company estimates that during the next 12 months, it will reclassify approximately $0.4 million of net losses from Accumulated other comprehensive loss to Interest expense.

As of July 2, 2022, December 31, 2021 and July 3, 2021, the fair values of the Company's derivative instruments were:

Fair Value of Other Financial Instruments. The carrying values of the Company's short-term financial instruments, including cash and cash equivalents and accounts and notes receivable, approximate their fair values because of the short maturity of these instruments. At July 2, 2022, December 31, 2021 and July 3, 2021, the fair value of the Company's long-term debt, including short-term debt and current maturities, was approximately $2,272.0 million, $1,914.7 million and $1,001.4 million, respectively, and was determined using Level 1 and Level 2 inputs described in Note 7 to the Notes to Consolidated Financial Statements in the 2021 Form 10-K. The carrying value of long-term debt, including short-term debt and current maturities, was $2,534.9 million, $1,843.1 million and $895.6 million as of July 2, 2022, December 31, 2021 and July 3, 2021, respectively.

Note 5 – Fair Value Measurements

The following table summarizes the Company's financial assets and liabilities measured at fair value on a recurring basis:

(in millions)		Fair Value		
Category	Fair Value Level	July 2, 2022	December 31, 2021	July 3, 2021

July 3, 2021	**$ 15.1**	**$ 372.5**	**$ 46.7**	**$ 434.3**

Adjustments in both periods include the effect of foreign currency translation on goodwill denominated in currencies other than the U.S. dollar. In addition, adjustments during the six months ended July 2, 2022 also include $1.9 million of purchase accounting adjustments from 2021 acquisitions. There was no accumulated impairment loss on Goodwill as of July 2, 2022, December 31, 2021 or July 3, 2021.

The Company's intangible assets, included within Other intangibles, net on the Condensed Consolidated Balance Sheets as of July 2, 2022, December 31, 2021 and July 3, 2021, are summarized by intangible asset type below:

	July 2, 2022		December 31, 2021		July 3, 2021	
(in millions)	Gross Amount	Accumulated Amortization	Gross Amount	Accumulated Amortization	Gross Amount	Accumulated Amortization
Intangible assets:

Other intangible assets primarily consist of software, patents and franchise agreements. Gross amounts and related accumulated amortization amounts include adjustments related to the impact of foreign currency translation. Aggregate amortization expense for intangibles was $15.4 million and $31.3 million for three and six months ended July 2, 2022, respectively. Aggregate amortization expense for intangibles was $ 8.0 million and $16.0 million for three and six months ended July 3, 2021, respectively.

The Company tests its intangible assets for impairment during the fourth quarter of each year, or whenever a significant change in events and circumstances (triggering event) occurs that indicates the fair value of intangible assets may be below their carrying values. The Company did not record an impairment charge during the six months ended July 2, 2022 or July 3, 2021.

Note 8 – Segment Data

Reportable Segments

The Company's segments are defined by management's reporting structure and operating activities. The Company's reportable segments are the following:

Propulsion. The Propulsion segment manufactures and markets a full range of outboard, sterndrive, and inboard engines, as well as propulsion-related controls, rigging, and propellers. These products are principally sold directly to boat builders, including Brunswick's Boat segment, and through marine retail dealers worldwide. The Propulsion segment primarily markets under the Mercury, Mercury MerCruiser, Mariner, Mercury Racing, and Mercury Diesel brands. The segment's engine manufacturing plants are located mainly in the United States and China, along with a joint venture in Japan, with sales mainly to markets in the Americas, Europe, and Asia-Pacific.

Parts & Accessories. The Parts & Accessories ("P&A") segment consists of the Engine Parts and Accessories and the Advanced Systems Group operating segments, which are aggregated and presented as a single reportable segment. The P&A segment also includes Navico, which was acquired in October 2021.

The P&A segment manufactures, markets, and supplies parts and accessories for both marine and non-marine markets. These products are designed for and sold mostly to aftermarket retailers, distributors, and distribution businesses, as well as original equipment manufacturers (including Brunswick brands). Branded parts and accessories include consumables, such as engine oils and lubricants, and are sold under the Mercury, Mercury Precision Parts, Quicksilver, and Seachoice brands. The P&A segment includes distribution businesses such as Land 'N' Sea, Kellogg Marine Supply, Lankhorst Taselaar, BLA, and Payne's Marine Group, which distribute third-party and Company products. These businesses are leading distributors of marine parts and accessories throughout North America, Europe, and Asia-Pacific. The P&A segment also includes businesses operating under the Ancor, Attwood, BEP, Blue Sea Systems, CZone, Del City, Garelick, Lenco Marine, Marinco, Mastervolt, MotorGuide, ParkPower, ProMariner, RELiON, Whale, and ASG Connect brand names. Products include marine electronics and control systems, instruments, trolling motors, fuel systems, and electrical systems, as well as specialty vehicle, mobile, and transportation aftermarket products. The P&A segment also includes Navico, a global leader in marine electronics and sensors, including multi-function displays, fish finders, autopilots, sonar, radar, and cartography operating under the B&G, C-MAP, Lowrance, and Simrad brand names.

The P&A segment's manufacturing and distribution facilities are primarily located in North America, Europe, Australia, and New Zealand.

Boat. The Boat segment designs, manufactures, and markets the following boat brands and products: Sea Ray sport boats and cruisers; Bayliner sport cruisers, runabouts, and Heyday wake boats; Boston Whaler fiberglass offshore boats; Lund fiberglass fishing boats; Crestliner, Cypress Cay, Harris, Lowe, Lund and Princecraft aluminum fishing, utility, pontoon boats, and deck boats; and Thunder Jet heavy-gauge aluminum boats. The Boat segment procures substantially all of its outboard engines, gasoline sterndrive engines, and gasoline inboard engines from Brunswick's Propulsion segment. The Boat segment also includes Brunswick boat brands based in Europe and Asia-Pacific, which include Quicksilver, Uttern, and Rayglass (including Protector and Legend). The Boat segment's products are manufactured mainly in the United States, Europe, and Mexico and sold through a global network of dealer and distributor locations, primarily in North America and Europe.

The Boat segment includes Business Acceleration which, through innovative service models, shared access solutions, including the Freedom Boat Club business acquired in 2019, dealer services and emerging technology, aims to provide exceptional experiences to attract a wide range of customers to the marine industry and shape the future of boating.

The Company evaluates performance based on segment operating earnings. Segment operating earnings do not include the expenses of corporate administration, impairments or gains on the sale of equity investments, earnings from unconsolidated affiliates, other expenses and income of a non-operating nature, transaction financing charges, interest expense, and income or provisions or benefits for income taxes.

Corporate/Other results include items such as corporate staff and administrative costs, investments in technology solutions, business development and other growth-related expenses, including IT enhancements.

Corporate/Other total assets consist of mainly cash, cash equivalents and investments in short-term marketable securities, restricted cash, income tax balances and investments in unconsolidated affiliates.

Segment eliminations adjust for sales between the Company's reportable segments and primarily relate to the sale of engines and parts and accessories to various boat brands, which are consummated at established arm's length transfer prices as the intersegment pricing for these engines and parts and accessories are based upon and consistent with selling prices to third-party customers.

Information about the operations of Brunswick's reportable segments is set forth below:

Note 10 – Income Taxes

The Company recognized an income tax provision for the three and six months ended July 2, 2022 of $ 55.8 million and $102.2 million, respectively. The income tax provision of $55.8 million included a net benefit of $0.7 million primarily associated with tax refunds. The income tax provision of $ 102.2 million included a net benefit of $3.3 million primarily associated with the net excess tax benefits related to share-based compensation, valuation-allowance adjustments and tax refunds. The Company recognized an income tax provision for the three and six months ended July 3, 2021 of $55.2 million and $102.6 million, respectively, which included a net charge of $6.2 million and $3.2 million, respectively. The net charge of $ 6.2 million was primarily associated with the restructuring of certain branch operations. The net charge of $3.2 million included the aforementioned branch restructuring charges offset by net excess tax benefits related to share-based compensation and valuation allowance adjustments. The excess tax benefit related to share-based compensation for the three and six months ended July 2, 2022 was $0.1 million and $2.9 million, respectively. The excess tax benefit related to share-based compensation was $0.1 million and $1.6 million for the three and six months ended July 3, 2021, respectively. The effective tax rate, which is calculated as the income tax provision as a percentage of earnings before income taxes, for the three and six months ended July 2, 2022 was 21.9 percent and 21.5 percent, respectively. The effective tax rate for the three and six months ended July 3, 2021 was 23.5 percent and 22.7 percent, respectively.

No deferred income taxes have been provided as of July 2, 2022, December 31, 2021 or July 3, 2021 on the applicable undistributed earnings of the non-U.S. subsidiaries where the indefinite reinvestment assertion has been applied. If at some future date these earnings cease to be indefinitely reinvested and are repatriated, the Company may be subject to additional U.S. income taxes and foreign withholding taxes on such amounts. The Company continues to provide deferred taxes, as required, on the undistributed net earnings of foreign subsidiaries and unconsolidated affiliates that are not deemed to be indefinitely reinvested in operations outside the United States.

As of July 2, 2022, December 31, 2021 and July 3, 2021, the Company had $10.3 million, $10.1 million and $4.6 million of gross unrecognized tax benefits, including interest, respectively. The Company believes it is reasonably possible that the total amount of gross unrecognized tax benefits as of July 2, 2022 could decrease by approximately $0.1 million in the next 12 months due to settlements with taxing authorities or lapses in the applicable statute of limitations. Due to the various jurisdictions in which the Company files tax returns and the uncertainty regarding the timing of the settlement of tax audits, it is possible that there could be significant changes in the amount of unrecognized tax benefits in 2022, but the amount cannot be estimated at this time.

The Company is regularly audited by federal, state and foreign tax authorities. The Internal Revenue Service ("IRS") has completed its field examination and has issued its Revenue Agents Report through the 2014 tax year and all open issues have been resolved. The Company is currently open to tax examinations by the IRS for the 2018 through 2020 tax years. Primarily as a result of filing amended returns, which were generated by the closing of federal income tax audits, the Company is still open to state and local tax audits in major tax jurisdictions dating back to the 2014 taxable year. The Company is no longer subject to income tax examinations by any major foreign tax jurisdiction for years prior to 2013.

Note 11 – Debt

The following table provides the changes in the Company's long-term debt for the six months ended July 2, 2022:

(in millions)	Short-term debt and current maturities of long-term debt	Long-term debt	Total
Balance as of December 31, 2021	$ 37.4	$ 1,779.0	**$ 1,816.4**

Other	0.9	—	**0.9**
Balance as of July 2, 2022	**$ 3.0**	**$ 2,499.0**	**$ 2,502.0**

As of July 2, 2022, Brunswick was in compliance with the financial covenants associated with its debt.

2032 and 2052 Notes

In March 2022, the Company issued aggregate principal amount of $ 450.0 million of 4.400% Senior Notes due 2032 (the "2032 Notes") and $ 300.0 million of 5.100% Senior Notes due 2052 (the "2052 Notes" and, together with the 2032 Notes, the "Notes") in a public offering, which resulted in aggregate net proceeds to the Company of $741.8 million. The Company intends to use the net proceeds from the sale of the Notes for general corporate purposes.

The 2032 Notes bear interest at a rate of 4.400% per year and the 2052 Notes bear interest at a rate of 5.100% per year. Interest on the 2032 Notes is payable semiannually in arrears on March 15 and September 15 of each year, and the first interest payment date will be September 15, 2022. Interest on the 2052 Notes is payable semiannually in arrears on April 1 and October 1 of each year, and the first interest payment date will be October 1, 2022. The 2032 Notes will mature on September 15, 2032, and the 2052 Notes will mature on April 1, 2052.

The Company may redeem the Notes of each series, in whole or in part, at any time and from time to time prior to maturity. If the Company elects to redeem the Notes at any time prior to (i) with respect to the 2032 Notes, June 15, 2032 (the date that is three months prior to the maturity of the 2032 Notes) or (ii) with respect to the 2052 Notes, October 1, 2051 (the date that is six months prior to the maturity of the 2052 Notes), it will pay a “make-whole” redemption price set forth in the Fifth Supplemental Indenture dated as of March 29, 2022 ("Fifth Supplemental Indenture"). On or after June 15, 2032, in the case of the 2032 Notes, or October 1, 2051, in the case of the 2052 Notes, the Company may, at its option, redeem the Notes of each series, in whole or in part at any time and from time to time, at a redemption price equal to 100% of the principal amount thereof. In addition to the redemption price, the Company will pay accrued and unpaid interest, if any, to, but not including, the redemption date.

If the Company experiences a change-of-control triggering event with respect to a series of Notes, as defined in the Fifth Supplemental Indenture, each holder of such series of Notes may require the Company to repurchase some or all of its Notes at a price equal to 101% of their principal amount, plus accrued and unpaid interest to, but not including, the repurchase date.

Term Loan

During the first six months of 2022, the Company made the remaining principal repayments totaling $ 56.3 million of its 2023 floating-rate term loan. The term loan was redeemed at 100 percent of the principal amount plus accrued interest, in accordance with the redemption provisions of the term loan. The Company recognized a loss on early extinguishment of debt of $0.1 million related to the term loan redemption.

Credit Facility

The Company maintains a Revolving Credit Agreement ("Credit Facility"). In March 2022, the Company amended its Credit Facility with certain wholly-owned subsidiaries of the Company as subsidiary borrowers and lenders as parties, and JPMorgan Chase Bank, N.A., as administrative agent. This amends and restates the Credit Facility, dated as of March 21, 2011, as amended and restated on July 16, 2021. The amended Credit Facility increases the revolving commitments to $750.0 million, with the capacity to add up to $ 100.0 million of additional revolving commitments, and amends the Credit Facility in certain respects, including, among other things:

- Extending the maturity date to March 31, 2027, with up to two one-year extensions available.

- Transitioning the reference rate for loans denominated in U.S. dollars from the London interbank offered rate ("LIBOR") to the term Secured Overnight Financing Rate ("SOFR"), with a credit spread adjustment of 10 basis points to be added to the reference rate for borrowings of U.S. dollar loans for each interest period.

During the first six months of 2022, gross borrowings under the Credit Facility totaled $ 125.0 million. As of July 2, 2022 there were no borrowings outstanding, and available borrowing capacity totaled $747.2 million, net of $2.8 million of letters of credit outstanding, under the Credit Facility. The maximum amount utilized under the Credit Facility during the six months ended July 2, 2022, including letters of credit outstanding under the Credit Facility, was $127.8 million. There were no borrowings under the Credit Facility during the six months ended July 3, 2021. Refer to Note 16 in the Notes to Consolidated Financial Statements in the 2021 Form 10-K for details regarding Brunswick's Credit Facility.

Commercial Paper

In December 2019, the Company entered into an unsecured commercial paper program ("CP Program") pursuant to which the Company may issue short-term, unsecured commercial paper notes ("CP Notes"). During the second quarter of 2022, the Company increased the size of its CP Program to allow the issuance of CP Notes in an aggregate principal amount not to exceed $500.0 million outstanding at any time. The CP Program previously allowed the Company to issue CP Notes in an aggregate principal amount not to exceed $300.0 million outstanding at any time. Amounts available under the CP Program may be borrowed, repaid and re-borrowed from time to time, with the aggregate principal amount of CP Notes outstanding under the CP Program at any time not exceeding the lower of $500.0 million or the available borrowing amount under the Credit Facility. Refer to Note 16 in the Notes to Consolidated Financial Statements in the 2021 Form 10-K for details regarding Brunswick's CP Program. During the first six months of 2022, borrowings under the CP Program totaled $500.0 million, all of which were repaid during the period. During the six months ended July 2, 2022, the maximum amount utilized under the CP Program was $300.0 million.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Certain statements in Management's Discussion and Analysis of Financial Condition and Results of Operations of Brunswick Corporation (the Company, we, us, our) are forward-looking statements. Forward-looking statements are based on current expectations, estimates, and projections about our business and by their nature address matters that are, to different degrees, uncertain. Actual results may differ materially from expectations and projections as of the date of this filing due to various risks and uncertainties. For additional information regarding forward-looking statements, refer to ***Forward-Looking Statements*** below.

Certain statements in Management's Discussion and Analysis are based on non-GAAP financial measures. GAAP refers to generally accepted accounting principles in the United States. A "non-GAAP financial measure" is a numerical measure of a registrant's historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the consolidated statements of operations, balance sheets or statements of cash flows of the issuer; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. For example, the discussion of our cash flows includes an analysis of free cash flows and total liquidity; the discussion of our net sales includes net sales on a constant currency basis; the discussion of our net sales includes net sales excluding acquisitions; the discussion of our earnings includes a presentation of operating earnings and operating margin excluding restructuring, exit and impairment charges, purchase accounting amortization, acquisition-related costs and other applicable charges and of diluted earnings per common share, as adjusted. Non-GAAP financial measures do not include operating and statistical measures.

We include non-GAAP financial measures in Management's Discussion and Analysis as management believes these measures and the information they provide are useful to investors because they permit investors to view our performance using the same tools that management uses to evaluate our ongoing business performance. In order to better align our reported results with the internal metrics management uses to evaluate business performance as well as to provide better comparisons to prior periods and peer data, non-GAAP measures exclude the impact of purchase accounting amortization related to acquisitions, among other adjustments.

We do not provide forward-looking guidance for certain financial measures on a GAAP basis because we are unable to predict certain items contained in the GAAP measures without unreasonable efforts. These items may include restructuring, exit and impairment costs, special tax items, acquisition-related costs, and certain other unusual adjustments.

Impact of COVID-19

The full extent of the impact of COVID-19 on our business, operations, and financial results will depend on evolving factors that we cannot accurately predict. We will continue to actively monitor the impact of COVID-19 and may take further actions that alter business operations as legally required, or that we determine are in the best interests of our employees, customers, dealers, suppliers, and other stakeholders. All global manufacturing and distribution facilities remain focused on rigorously applying, evolving, and automating COVID-19 mitigation procedures. Refer to **Part I. Item 1A. Risk Factors** in the Company's Annual Report on Form 10-K for the fiscal year 2021 (the 2021 Form 10-K) for further information.

Impact of Russia-Ukraine Conflict

We continue to monitor the conflict in Ukraine and the potential impact to our operations. Our cessation of business in Russia, Belarus, Crimea and the disputed territories has not had a significant financial impact on our business.

Acquisitions

During the second quarter of 2022, we acquired certain Freedom Boat Club franchise operations and territory rights as well as certain marine assets in the Southeast United States for net cash consideration of $95.7 million. Refer to **Note 3 – Acquisitions** in the Notes to Condensed Consolidated Financial Statements for further information.

On October 4, 2021, we completed the acquisition of Navico for $1.094 billion net cash consideration. Navico was a privately held global company based in Egersund, Norway and is a global leader in marine electronics and sensors, including multi-function displays, fish finders, autopilots, sonar, radar, and cartography. We also completed the acquisitions of substantially all the net assets of RELiON Battery, LLC, SemahTronix, LLC, Fanautic Club, and certain Freedom Boat Club franchise operations and territory rights in the United States during 2021 for net cash consideration of $66.2 million. Refer to **Note 3 – Acquisitions** in the Notes to Condensed Consolidated Financial Statements for further information.

Overview

Net sales increased 18 percent during the second quarter of 2022 when compared with the second quarter of 2021. All segments contributed to the strong performance and reported substantial net sales increases despite ongoing supply chain disruptions and macro volatility. The propulsion segment continues to expand its outboard propulsion retail market share around the globe, led by gains in high-horsepower categories. Our parts and accessories businesses delivered strong sales growth, as benefits from acquisitions completed in 2021, steady engine P&A sales in the U.S., and strong OEM sales from our Advanced Systems Group helped to offset headwinds related to early-quarter poor weather in certain northern locations, supply chain constraints in our third-party distribution businesses, and retailers returning to more normal stocking patterns. Our Boat segment posted robust top-line growth when compared to the second quarter of 2021 with all product categories contributing favorably to the performance. Our international net sales increased 10 percent and 17 percent in the second quarter on a GAAP and constant currency basis, respectively, with all regions contributing to the increase.

Net sales increased 18 percent during the first half of 2022, when compared with the first half of 2021, due to the same factors described above. Our international net sales increased 15 percent and 20 percent in the first half on a GAAP and constant currency basis, respectively, with growth in all regions.

Operating earnings in the second quarter of 2022 were $279.0 million and $300.2 million on a GAAP and As Adjusted basis, respectively. This compares to operating earnings during the second quarter of 2021 of $250.2 million and $266.4 million on a GAAP and an As Adjusted basis, respectively.

Operating earnings in the first half of 2022 were $518.5 million and $567.7 million on a GAAP and As Adjusted basis, respectively. This compares to operating earnings during the first half of 2021 of $482.1 million and $509.4 million on a GAAP and an As Adjusted basis, respectively.

Matters Affecting Comparability

Changes in Foreign Currency Rates. Percentage changes in net sales expressed in constant currency reflect the impact that changes in currency exchange rates had on comparisons of net sales. To determine this information, net sales transacted in currencies other than the U.S. dollar have been translated to U.S. dollars using the average exchange rates that were in effect during the comparative period. The percentage change in net sales expressed on a constant currency basis better reflects the changes in the underlying business trends, excluding the impact of translation arising from foreign currency exchange-rate fluctuations. Approximately 25 percent of our annual net sales are transacted in a currency other than the U.S. dollar. Our most material exposures include sales in Euros, Canadian dollars, Australian dollars, and Brazilian real.

The table below summarizes the impact of changes in currency exchange rates and also the impact of acquisitions on our net sales:

Net sales increased 18 percent during both the second quarter and first half of 2022, when compared with the same prior year period with all segments benefiting from the implementation of higher prices, partially offset by unfavorable changes in foreign currency exchange rates. Refer to the Propulsion, Parts & Accessories, and Boat segments for further details on the drivers of net sales changes.

Gross margin percentage decreased 50 basis points in both the second quarter and first half of 2022 when compared with the same prior year period, with inflationary pressures, supply chain inefficiencies and unfavorable changes in foreign currency exchange rates more than offsetting increased sales across all segments.

Selling, general and administrative expense (SG&A) increased during the second quarter and first half of 2022 when compared with the same prior year period, primarily due to the businesses acquired during 2021. Excluding certain one-time items presented above, SG&A as a percentage of sales was higher in the second quarter and first half of 2022 compared with the same prior year period, reflecting the impact of 2021 acquisitions, increased spending on sales and marketing, ACES ("Autonomy, Connectivity, Electrification, and Shared access") programs, and other growth initiatives, partially offset by increased net sales. Research and development expense increased in 2022 versus 2021, reflecting continued investment in new products in all segments.

We did not record any restructuring, exit and impairment charges during the three and six months ended July 2, 2022 and recorded $0.2 million and $0.7 million during the three and six months ended July 3, 2021, respectively.

We recorded Equity earnings of $0.7 million and $1.5 million in the three and six months ended July 2, 2022, respectively, which were mainly related to our marine and technology-related joint ventures. This compares with Equity earnings of $0.4 million and $1.2 million in the three and six months ended July 3, 2021, respectively.

We recognized $0.3 million and $(1.2) million in Other expense, net in the three and six months ended July 2, 2022, respectively. This compares with $(1.5) million and $(2.8) million recognized in Other expense, net in the three and six months ended July 3, 2021, respectively. Other expense, net primarily includes remeasurement gains and losses resulting from changes in foreign currency rates and other postretirement benefit costs.

Net interest expense increased for the three and six months ended July 2, 2022 when compared with the same prior year period due to an increase in average daily debt outstanding, which was influenced by the timing of debt issuances. Refer to **Note 11 – Debt** in the Notes to Condensed Consolidated Financial Statements in the 2021 Form 10-K.

We recognized an income tax provision for the three and six months ended July 2, 2022 of $55.8 million and $102.2 million, respectively, compared to $55.2 million and $102.6 million for the three and six months ended July 3, 2021, respectively.

The effective tax rate, which is calculated as the income tax provision as a percentage of earnings before income taxes, for the three and six months ended July 2, 2022 was 21.9 percent and 21.5 percent, respectively. The effective tax rate for the three and six months ended July 3, 2021 was 23.5 percent and 22.7 percent, respectively.

Due to the factors described in the preceding paragraphs, operating earnings, net earnings from continuing operations, and diluted earnings per common share from continuing operations increased during the second quarter and first half of 2022 when compared with the same prior-year period.

Propulsion Segment

The following table sets forth Propulsion segment results for the three and six months ended:

	Three Months Ended		2022 vs. 2021		Six Months Ended		2022 vs. 2021	
(in millions)	**July 2, 2022**	**July 3, 2021**	**$ Change**	**% Change**	**July 2, 2022**	**July 3, 2021**	**$ Change**	**% Change**

Propulsion segment net sales increased $84.7 million, or 13 percent, in the second quarter of 2022 compared to the second quarter of 2021 as continued strong global demand for all product categories resulted in increased sales volume which continues to be enabled by increased production levels.

Propulsion segment net sales increased $132.8 million, or 10 percent, in the first half of 2022 versus prior year as a result of the same factors described above.

International sales were 34 percent of the segment's net sales in the second quarter of 2022 and increased 2 percent from the prior year on a GAAP basis. On a constant currency basis, international net sales increased 10 percent, with increases across all regions except Asia-Pacific due to strong performance in the comparable prior period. International sales were 35 percent of the segment's net sales in the first half of 2022 and increased 5 percent from the prior year on a GAAP basis. On a constant currency basis, international sales increased 10 percent in the first half of 2022, with increases across all regions except Asia-Pacific due to the same factor noted above.

Propulsion segment operating earnings in the second quarter of 2022 were $142.0 million, an increase of 16 percent when compared to the second quarter of 2021, as a result of increased sales, operating efficiencies and lower operating expenses, slightly offset by investments in capacity and product development. Operating earnings for the first half of 2022 were $267.3 million, an increase of 8 percent, as a result of the same factors described above.

P&A segment net sales increased $102.6 million, or 19 percent in the second quarter of 2022 versus the second quarter of 2021 due in large part to the acquisitions of Navico, RELiON, and SemahTronix. Excluding the impact from acquisitions, P&A revenues were down 4 percent. While sales for our U.S engine P&A and core ASG sales were up quarter over quarter, sales in our lower margin distribution businesses were negatively impacted by third-party product availability and the aftermarket product businesses outside the U.S. Supply chain constraints were particularly acute in international regions, with U.S. sales also impacted by a slower start to the boating season in northern markets due to unfavorable weather conditions.

P&A segment net sales increased $260.8 million, or 26 percent, in the first half of 2022 versus prior year as a result of the same factors described above.

International sales were 32 percent of the P&A segment's net sales in the second quarter of 2022 and increased 32 percent year over year on a GAAP basis. On a constant currency basis, international net sales increased 39 percent, with increases across all regions. International sales were 33 percent of the P&A segment's net sales in the first half of 2022 and increased 37 percent year over year on a GAAP basis. On a constant currency basis, international sales increased 43 percent in the first half of 2022, with increases across all regions.

P&A segment operating earnings in the second quarter of 2022 were $108.2 million, a decrease of 5 percent compared to the second quarter of 2021 with benefits from acquisitions being offset by the sales factors described above, as well as outsized material and freight inflation. Operating earnings for the first half of 2022 were $199.8 million, a decrease of 3 percent, as a result of the same factors described above.

Boat Segment

Boat segment net sales increased $119.3 million, or 27 percent, in the second quarter of 2022 versus the second quarter of 2021 due to increased sales volumes to dealers.

Boat segment net sales increased $192.6 million, or 22 percent, in the first half of 2022, resulting from the same factor described above.

International sales were 26 percent of the segment's net sales in the second quarter of 2022 and increased 8 percent on a GAAP basis. On a constant currency basis, international sales increased 14 percent, with increases across all regions. International sales were 25 percent of the segment's net sales in the first half of 2022 and increased 11 percent on a GAAP basis. On a constant currency basis, international sales increased 17 percent in the first half of 2022, with increases across all regions.

Boat segment operating earnings in the second quarter of 2022 were $58.9 million, an increase of $14.7 million when compared to the second quarter of 2021, due to increased sales together with operational efficiencies. The increase was partially offset by inefficiencies resulting from supply chain disruptions, inflationary pressures and the production ramp-up of the new Boston Whaler Flagler facility which will be substantially complete by the end of the third quarter. Operating earnings in the first half of 2022 were $104.2 million, an increase of 23 percent, as a result of the same factors described above.

Corporate/Other

The following table sets forth Corporate/Other results for the three and six months ended:

	Three Months Ended		2022 vs. 2021		Six Months Ended		2022 vs. 2021	
(in millions)	July 2, 2022	July 3, 2021	$ Change	% Change	July 2, 2022	July 3, 2021	$ Change	% Change
Operating loss	**$ (30.1)**	$ (30.5)	$ 0.4	(1.3 %)	**$ (52.8)**	$ (55.8)	$ 3.0	(5.4 %)

Corporate operating expenses in the second quarter of 2022 were $30.1 million, a decrease of $0.4 million when compared to the second quarter of 2021, primarily due to a decrease in variable compensation expense and favorable mark-to-market adjustments for deferred compensation arrangements, partially offset by an increase in investments in enterprise growth initiatives.

Corporate operating expenses decreased 5 percent in the first half of 2022 versus 2021, resulting from the same factors described above.

Cash Flow, Liquidity and Capital Resources

The following table sets forth an analysis of free cash flow for the six months ended:

(in millions)	July 2, 2022	July 3, 2021
Net cash provided by operating activities of continuing operations	**$ 149.4**	$ 350.5
Net cash (used for) provided by:		
Plus: Capital expenditures	**(196.5)**	(110.3)
Plus: Proceeds from the sale of property, plant and equipment	**3.0**	4.6
Plus: Effect of exchange rate changes	**(11.2)**	(0.5)
Total free cash flow [(A)]	**$ (55.3)**	$ 244.3

(A) We define "Free cash flow" as cash flow from operating and investing activities of continuing operations (excluding cash provided by or used for acquisitions, investments, purchases or sales/maturities of marketable securities and other investing activities) and the effect of exchange rate changes on cash and cash equivalents. Free cash flow is not intended as an alternative measure of cash flow from operations, as determined in accordance with GAAP in the United States. We use this financial measure both in presenting our results to shareholders and the investment community and in our internal evaluation and management of our businesses. Management believes that this financial measure and the information it provides are useful to investors because it permits investors to view our performance using the same tool that management uses to gauge progress in achieving its goals. Management believes that the non-GAAP financial measure "Free cash flow" is also useful to investors because it is an indication of cash flow that may be available to fund investments in future growth initiatives.

Our major sources of funds for capital investments, acquisitions, share-repurchase programs and dividend payments are cash generated from operating activities, available cash and marketable securities balances, divestitures and borrowings. We evaluate potential acquisitions, divestitures and joint ventures in the ordinary course of business.

2022 Cash Flow

Net cash provided by operating activities of continuing operations in the first six months of 2022 totaled $149.4 million versus $350.5 million in the comparable period of 2021. The decrease is primarily due to increases in working capital, partially offset by higher net earnings during the quarter.

The primary drivers of net cash provided by operating activities of continuing operations in the first six months of 2022 were net earnings, net of non-cash items, partially offset by increases in working capital. Working capital is defined as Accounts and notes receivable, Inventories and Prepaid expenses and other, net of Accounts payable and Accrued expenses as presented in the Condensed Consolidated Balance Sheets, excluding the impact of acquisitions and non-cash adjustments. Accounts and notes receivable increased $125.1 million, primarily due to increased sales across all segments. Inventory increased $162.3 million, driven primarily by increases in work-in-process and raw materials to support higher production volumes. Accrued expenses decreased $30.9 million, primarily driven by payment of prior year variable compensation which had been accrued as of December 31, 2021.

Net cash used for investing activities of continuing operations was $312.7 million, which included $196.5 million of capital expenditures, $95.7 million of cash paid for acquisitions, net of cash acquired and $36.2 million of purchases of marketable securities, partially offset by $16.7 million of cross-currency swap settlements. Our capital spending was focused on investments in capacity expansion, new products, and technologies.

Net cash provided by financing activities was $388.9 million and primarily related to proceeds of issuances of long-term debt, partially offset by common stock repurchases, payments of long-term debt including current maturities, and cash dividends paid to common shareholders. Refer to **Note 11 – Debt** in the Notes to Condensed Consolidated Financial Statements for further details on our debt activity during the quarter.

2021 Cash Flow

Net cash provided by operating activities of continuing operations in the first six months of 2021 totaled $350.5 million. The primary drivers of net cash provided by operating activities of continuing operations in 2021 were net earnings, net of non-cash items, partially offset by the seasonal impact of increasing working capital. Accounts and notes receivable increased $167.5 million primarily due to increased sales across all segments. Inventory increased $129.9 million, driven by increases to support higher production volumes. Accounts payable increased $129.8 million primarily due to timing of payments and higher inventory levels across all reportable segments. Accrued expenses increased $42.1 million primarily driven by increases in program-related volume discounts and rebates.

Net cash used for investing activities of continuing operations was $75.6 million, which primarily included capital expenditures of $110.3 million, offset by sales of marketable securities of $55.9 million. Our capital spending was focused on investments in new products and technologies.

Net cash used for financing activities was $195.7 million and primarily related to payments of long-term debt including current maturities, common stock repurchases, and cash dividends paid to common shareholders. Refer to **Note 11 – Debt** in the Notes to Condensed Consolidated Financial Statements for further details on our debt activity during the quarter.

Liquidity and Capital Resources

We view our highly liquid assets as of July 2, 2022, December 31, 2021 and July 3, 2021 as:

(in millions)	**July 2, 2022**	**December 31, 2021**	**July 3, 2021**
Cash and cash equivalents	**$ 566.7**	$ 354.5	$ 590.2
Short-term investments in marketable securities	**37.0**	0.8	0.8
Total cash, cash equivalents and marketable securities	**$ 603.7**	$ 355.3	$ 591.0

The following table sets forth an analysis of total liquidity as of July 2, 2022, December 31, 2021 and July 3, 2021:

(in millions)	July 2, 2022	December 31, 2021	July 3, 2021
Cash, cash equivalents and marketable securities	**$ 603.7**	$ 355.3	$ 591.0
Amounts available under lending facility (A)	**747.2**	497.2	397.2
Total liquidity (B)	**$ 1,350.9**	$ 852.5	$ 988.2

(A) See **Note 11 – Debt** in the Notes to Condensed Consolidated Financial Statements for further details on our lending facility.

(B) We define Total liquidity as Cash and cash equivalents and Short-term investments in marketable securities as presented in the Condensed Consolidated Balance Sheets, plus amounts available for borrowing under its lending facilities. Total liquidity is not intended as an alternative measure to Cash and cash equivalents and Short-term investments in marketable securities as determined in accordance with GAAP in the United States. We use this financial measure both in presenting our results to shareholders and the investment community and in our internal evaluation and management of our businesses. Management believes that this financial measure and the information it provides are useful to investors because it permits investors to view our performance using the same metric that management uses to gauge progress in achieving our goals. Management believes that the non-GAAP financial measure "Total liquidity" is also useful to investors because it is an indication of our available highly liquid assets and immediate sources of financing.

Cash, cash equivalents and marketable securities totaled $603.7 million as of July 2, 2022, an increase of $248.4 million from $355.3 million as of December 31, 2021, and an increase of $12.7 million from $591.0 million as of July 3, 2021. Total debt as of July 2, 2022, December 31, 2021 and July 3, 2021 was $2,502.0 million, $1,816.4 million and $875.5 million, respectively. Our debt-to-capitalization ratio was 56 percent as of July 2, 2022, an increase from 49 percent as of December 31, 2021 and from 33 percent as of July 3, 2021.

We borrowed $125.0 million under the Credit Facility during the first half of 2022, all of which was repaid and thus we did not have any borrowings outstanding under the Credit Facility as of July 2, 2022. Available borrowing capacity under the Credit Facility totaled $747.2 million, net of $2.8 million of letters of credit outstanding. During the first half of 2022, the maximum amount utilized under the CP Program was $300.0 million. Refer to **Note 11 – Debt** in the Notes to Condensed Consolidated Financial Statements and **Note 16 - Debt** in the Notes to Consolidated Financial Statements in the 2021 Form 10-K, for further details.

The level of borrowing capacity under our Credit Facility and CP Program is limited by both a leverage and interest coverage test. These covenants also pertain to termination provisions included in our wholesale financing joint-venture arrangements with Wells Fargo Distribution Finance. Based on our anticipated earnings generation throughout the year, we expect to maintain sufficient cushion against the existing debt covenants.

2022 Capital Strategy

We continue to plan for capital expenditures in the range of $375 million to $425 million to support growth initiatives throughout our organization. Our estimate of full year interest expense remains at approximately $95 million. On July 19, 2022, our Board of Directors approved a $500 million increase to our share repurchase authorization. Our authorization remaining is now in excess of $600 million. Our decision to accelerate share repurchases to take advantage of current market and sector value dislocation will result in total targeted share repurchases for 2022 of approximately $400 million, lowering our average diluted shares outstanding for the year to between 75.0 million and 75.5 million shares. Additionally, we anticipate a higher build in working capital for the year, primarily related to our businesses holding higher levels of inventory to support production levels.

Financing Joint Venture

On March 10, 2021, through our Brunswick Financial Services Corporation subsidiary, we entered into an amended and restated joint venture agreement with Wells Fargo Commercial Distribution Finance to extend the term of our financial services joint venture, Brunswick Acceptance Company, LLC (BAC), through December 31, 2025. The amendment did not otherwise materially change the terms of the agreement. BAC is detailed further in the 2021 Form 10-K.

Off-Balance Sheet Arrangements and Contractual Obligations

Our off-balance sheet arrangements and contractual obligations as of December 31, 2021 are detailed in the 2021 Form 10-K. There have been no material changes in these arrangements and obligations outside the ordinary course of business since December 31, 2021.

Environmental Regulation

There were no material changes in our environmental regulatory requirements since the filing of our 2021 Form 10-K.

Critical Accounting Policies

There were no material changes in our critical accounting policies since the filing of our 2021 Form 10-K.

As discussed in the 2021 Form 10-K, the preparation of the consolidated financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the amount of reported assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements, and revenues and expenses during the periods reported. Actual results may differ from those estimates.

Recent Accounting Pronouncements

Recent accounting pronouncements that have been adopted during the three months ended July 2, 2022, or will be adopted in future periods, are included in **Note 1 – Significant Accounting Policies** in the Notes to Condensed Consolidated Financial Statements.

Forward-Looking Statements

Certain statements in this Quarterly Report on Form 10-Q are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on current expectations, estimates, and projections about Brunswick's business and by their nature address matters that are, to different degrees, uncertain. Words such as "may," "could," "should," "expect," "anticipate," "project," "position," "intend," "target," "plan," "seek," "estimate," "believe," "predict," "outlook," and similar expressions are intended to identify forward-looking statements. Forward-looking statements are not guarantees of future performance and involve certain risks and uncertainties that may cause actual results to differ materially from expectations as of the date of this quarterly report. These risks include, but are not limited to: the effect of adverse general economic conditions, including the amount of disposable income consumers have available for discretionary spending; fiscal and monetary policy concerns; adverse capital market conditions; changes in currency exchange rates; higher energy and fuel costs; competitive pricing pressures; interest-rate risk related to our debt; the coronavirus (COVID-19) pandemic and the emergence of variant strains; actual or anticipated increases in costs, disruptions of supply, or defects in raw materials, parts, or components we purchase from third parties, including as a result of pressures due to the pandemic; supplier manufacturing constraints, increased demand for shipping carriers, and transportation disruptions; managing our manufacturing footprint; adverse weather conditions, climate change events and other catastrophic event risks; international business risks, geopolitical tensions or conflicts, sanctions, embargoes, or other regulations; our ability to develop new and innovative products and services at a competitive price; our ability to meet demand in a rapidly changing environment; loss of key customers; absorbing fixed costs in production; risks associated with joint ventures that do not operate solely for our benefit; our ability to integrate acquisitions, including Navico, and the risk for associated disruption to our business; the risk that unexpected costs will be incurred in connection with the Navico transaction or the possibility that the expected synergies and value creation from the transaction will not be realized or will not be realized within the expected time period; our ability to successfully implement our strategic plan and growth initiatives; attracting and retaining skilled labor, implementing succession plans for key leadership, and executing organizational and leadership changes; our ability to identify, complete, and integrate targeted acquisitions; the risk that strategic divestitures will not provide business benefits; maintaining effective distribution; risks related to dealers and customers being able to access adequate financing; requirements for us to repurchase inventory; inventory reductions by dealers, retailers, or independent boat builders; risks related to the Freedom Boat Club franchise business model; outages, breaches, or other cybersecurity events regarding our technology systems, which could affect manufacturing and business operations and could result in lost or stolen information and associated remediation costs; our ability to protect our brands and intellectual property; changes to U.S. trade policy and tariffs; any impairment to the value of goodwill and other assets; product liability, warranty, and other claims risks; legal, environmental, and other regulatory compliance, including increased costs, fines, and reputational risks; changes in income tax legislation or enforcement; managing our share repurchases; and risks associated with certain divisive shareholder activist actions.

Additional risk factors are included in the 2021 Form 10-K. Forward-looking statements speak only as of the date on which they are made, and Brunswick does not undertake any obligation to update them to reflect events or circumstances after the date of this Quarterly Report on Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk from changes in foreign currency exchange rates, interest rates and commodity prices. We enter into various hedging transactions to mitigate these risks in accordance with guidelines established by our management. We do not use financial instruments for trading or speculative purposes. Our risk management objectives are described in **Note 4 – Financial Instruments** in the Notes to Condensed Consolidated Financial Statements and Note 14 in the Notes to Consolidated Financial Statements in the 2021 Form 10-K.

There have been no significant changes to our market risk since December 31, 2021. For a discussion of exposure to market risk, refer to Part II, Item 7A – Quantitative and Qualitative Disclosures about Market Risk, set forth in the 2021 Form 10-K.

Item 4. Controls and Procedures

Under the supervision and with the participation of our management, including the Chief Executive Officer and the Chief Financial Officer (our principal executive officer and principal financial officer, respectively), we have evaluated our disclosure controls and procedures (as defined in Securities Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this Quarterly Report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective. There were no changes in our internal control over financial reporting during the fiscal quarter covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1A. Risk Factors

There have been no material changes from the risk factors previously disclosed in Part I, "Item 1A. Risk Factors" in our 2021 Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the first six months of 2022, we repurchased $220.0 million of stock, and as of July 2, 2022, the remaining authorization was $126.4 million.

We repurchased the following shares of common stock during the three months ended July 2, 2022:

Period	Total Number of Shares Purchased	Weighted Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Amount of Dollars that May Yet Be Used to Purchase Shares Under the Program

Exhibit 31.1

Certification Pursuant to
Rules 13a-14(a) and 15d-14(a) under the Securities Exchange Act of 1934, as Amended

I, David M. Foulkes, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Brunswick Corporation;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and we have:

   a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
   b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
   c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
   d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

   a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
   b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
