**Note 1 – Significant Accounting Policies**

*Interim Financial Statements.* Brunswick's unaudited interim condensed consolidated financial statements have been prepared pursuant to Securities and Exchange Commission (SEC) rules and regulations. Therefore, certain information and disclosures normally included in financial statements and related notes prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted.

These financial statements should be read in conjunction with, and have been prepared in conformity with, the accounting principles reflected in the consolidated financial statements and related notes included in Brunswick's 2020 Annual Report on Form 10-K for the year ended December 31, 2020 (the 2020 Form 10-K). These results include, in management's opinion, all normal and recurring adjustments necessary to present fairly Brunswick's financial position, results of operations and cash flows. Due to the seasonality of Brunswick's businesses, the interim results are not necessarily indicative of the results that may be expected for the remainder of the year.

The Company maintains its financial records on the basis of a fiscal year ending on December 31, with the fiscal quarters spanning approximately thirteen weeks. The first quarter ends on the Saturday closest to the end of the first thirteen-week period. The second and third quarters are thirteen weeks in duration and the fourth quarter is the remainder of the year. The third quarter of fiscal year 2021 ended on October 2, 2021 and the third quarter of fiscal year 2020 ended on September 26, 2020.

**Note 2 – Revenue Recognition**

The following table presents the Company's revenue in categories that depict how the nature, amount, timing, and uncertainty of revenue and cash flows are affected by economic factors:

As of December 31, 2020, \$113.0 million of contract liabilities associated with extended warranties and customer deposits were reported in Accrued expenses and Other Long-term liabilities, of which \$6.9 million and \$28.0 million were recognized as revenue during the three and nine months ended October 2, 2021, respectively. As of October 2, 2021, total contract liabilities were \$138.8 million. The total amount of the transaction price allocated to unsatisfied performance obligations as of October 2, 2021 was \$130.6 million for contracts greater than one year, which primarily relates to extended warranties. The Company expects to recognize \$12.9 million of this amount in the fourth quarter of 2021, \$33.8 million in 2022, and \$83.9 million thereafter.

**Note 3 – Discontinued Operations**

On June 27, 2019, the Company completed the sale of its Fitness business to KPS Capital Partners, LP. As a result, this business, which was previously reported in the Company's Fitness segment, is being reported as discontinued operations in the Condensed Consolidated Statements of Comprehensive Income and Condensed Consolidated Statements of Cash Flows for all periods presented. Refer to Note 3 in the 2020 Form 10-K for further information.

In connection with the sale of its Fitness business, the Company retained assets of \$26.4 million primarily related to VAT receivables, and retained liabilities of \$45.1 million primarily related to VAT payables, product warranty liabilities and certain employee benefits. As of October 2, 2021, retained assets and liabilities were \$4.1 million and \$2.1 million, respectively. As of September 26, 2020, retained assets and liabilities were \$9.6 million and \$22.8 million, respectively.

**Note 4 – Restructuring, Exit and Impairment Activities**

The Company recorded restructuring, exit and impairment charges in the Condensed Consolidated Statements of Comprehensive Income in 2021 and 2020.

**Note 5 – Acquisitions***2021 Acquisitions*

On September 1, 2021, the Company acquired substantially all the assets of RELiON Battery, LLC ("RELiON"). RELiON is a global provider of lithium batteries and related products to multiple industry sectors. The acquisition of RELiON complements our existing portfolio of advanced battery and power management brands. On September 17, 2021, the Company acquired substantially all the assets of SemahTronix, a global supplier of high-complexity electrical wiring harnesses for advanced products in the marine, mobile, and defense industries. The acquisition of the SemahTronix assets enhances our integrated systems offerings by providing our ASG Connect organization and our global customers with access to high-quality, large, complex electrical wire harnessing systems that further enable our end-to-end systems solutions and capabilities. These acquisitions are included as part of the Parts & Accessories segment.

On July 9, 2021, the Company acquired Fanautic Club, one of the largest European boat clubs with 23 locations in major coastal cities and tourist centers across Spain. The Company also acquired certain Freedom Boat Club franchise operations and territory rights in the United States during the first nine months of 2021. Acquiring such assets enables Brunswick to accelerate growth by increasing its investments in these markets. These acquisitions are included as part of the Company's Boat segment.

The Company paid net cash consideration of \$50.3 million for these acquisitions. The opening balance sheets, which are preliminary and subject to change within the measurement period as the Company finalizes the purchase price allocation and fair value estimates, include \$26.9 million of goodwill and \$21.2 million of identifiable intangible assets, including customer relationships and trade names of \$14.3 million and \$6.9 million, respectively. The amount assigned to customer relationships will be amortized over the estimated useful life of 10 years. Transaction costs associated with these acquisitions of \$0.5 million and \$1.5 million were expensed as incurred within Selling, general and administrative expense during the three and nine months ended October 2, 2021, respectively. The acquisitions are not material to our net sales, results of operations or total assets during any period presented. Accordingly, the Company's consolidated results of operations do not differ materially from historical performance as a result of the acquisitions, and pro forma results are not presented.

**Note 6 – Financial Instruments**

The Company operates globally with manufacturing and sales facilities around the world, and therefore, is subject to both financial and market risks. The Company utilizes normal operating and financing activities, along with derivative financial instruments, to minimize these risks. See Note 14 in the Notes to Consolidated Financial Statements in the 2020 Form 10-K for further details regarding the Company's financial instruments and hedging policies.

*Cross-Currency Swaps.* During the second quarter of 2021, the Company entered into cross-currency swaps to hedge Euro currency exposures of the net investment in certain foreign subsidiaries. As of October 2, 2021, the notional value of cross-currency swap contracts outstanding was \$200.0 million. The cross-currency swaps were designated as net investment hedges, with the amount of gain or loss associated with the change in fair value of these instruments included within Accumulated other comprehensive loss and recognized upon termination of the respective investment.

*Commodity Price.* The Company uses commodity swaps to hedge anticipated purchases of aluminum. As of October 2, 2021, December 31, 2020 and September 26, 2020, the notional values of commodity swap contracts outstanding were \$9.6 million, \$10.0 million and \$5.2 million, respectively, and the contracts mature through 2022. The amount of gain or loss associated with the change in fair value of these instruments is deferred in Accumulated other comprehensive loss and recognized in Cost of sales in the same period or periods during which the hedged transaction affects earnings. As of October 2, 2021, the Company estimates that during the next 12 months it will reclassify approximately \$3.5 million in net gains (based on current prices) from Accumulated other comprehensive loss to Cost of sales.

*Foreign Currency Derivatives.* Forward exchange contracts outstanding as of October 2, 2021, December 31, 2020 and September 26, 2020 had notional contract values of \$454.1 million, \$395.9 million and \$293.3 million, respectively. There were no option contracts outstanding as of either October 2, 2021 or December 31, 2020. Option contracts outstanding at September 26, 2020 had a notional contract value of \$10.4 million. The forward contracts outstanding as of October 2, 2021 mature through 2022 and mainly relate to the Euro, Australian dollar, Canadian dollar, and Japanese yen. As of October 2, 2021, the Company estimates that during the next 12 months, it will reclassify approximately \$4.3 million of net gains (based on current rates) from Accumulated other comprehensive loss to Cost of sales.

**Notes to Condensed Consolidated Financial Statements**  
(unaudited)

*Interest Rate Derivatives.* In the second half of 2019, the Company settled fixed-to-floating interest rate swaps that it had previously executed to convert a portion of its long-term debt from fixed to floating rate debt, resulting in a net deferred gain of \$2.5 million included within Debt. The Company will reclassify \$0.7 million of net deferred gains from Debt to Interest expense during the next 12 months. There were no outstanding fixed-to-floating interest rate swaps as of October 2, 2021, December 31, 2020, or September 26, 2020.

During 2021, the Company entered into forward-starting interest rate swaps to hedge the interest rate risk associated with anticipated debt issuances. On August 4, 2021, the company settled these interest rate swaps, resulting in a net deferred loss of \$1.6 million. As a result, there are no outstanding forward-starting interest rate swaps as of October 2, 2021, December 31, 2020, or September 26, 2020. As of October 2, 2021, December 31, 2020, and September 26, 2020, the Company had \$2.6 million, \$1.4 million, and \$1.5 million, respectively, of net deferred losses associated with previously settled forward-starting interest rate swaps. Forward-starting interest rate swaps are designated as cash flow hedges with gains and losses included within Accumulated other comprehensive loss. As of October 2, 2021, the Company estimates that during the next 12 months, it will reclassify approximately \$0.9 million of net losses resulting from settled forward-starting interest rate swaps from Accumulated other comprehensive loss to Interest expense.

As of October 2, 2021, December 31, 2020, and September 26, 2020, the fair values of the Company's derivative instruments were:

*Fair Value of Other Financial Instruments.* The carrying values of the Company's short-term financial instruments, including cash and cash equivalents and accounts and notes receivable, approximate their fair values because of the short maturity of these instruments. As of October 2, 2021, December 31, 2020 and September 26, 2020, the fair value of the Company's long-term debt, including short-term debt and current maturities, was approximately \$1,941.1 million, \$1,062.3 million and \$1,192.4 million, respectively, and was determined using Level 1 and Level 2 inputs described in Note 7 to the Notes to Consolidated Financial Statements in the 2020 Form 10-K. The carrying value of short-term and long-term debt, including current maturities, was \$1,848.1 million, \$972.1 million and \$1,082.9 million as of October 2, 2021, December 31, 2020 and September 26, 2020, respectively.

In addition to the items shown in the table above, refer to Note 17 in the Notes to Consolidated Financial Statements in the 2020 Form 10-K for further information regarding the fair value measurements associated with the Company's postretirement benefit plans.

**Note 8 – Share-Based Compensation**

Under the Brunswick Corporation 2014 Stock Incentive Plan, the Company may grant stock appreciation rights (SARs), non-vested stock units, and performance awards to executives, other employees and non-employee directors from treasury shares and from authorized, but unissued, shares of common stock initially available for grant, as well as from: (i) the forfeiture of past stock units and awards; (ii) shares not issued upon the net settlement of SARs; and (iii) shares delivered to or withheld by the Company to pay the withholding taxes related to stock units and awards. As of October 2, 2021, 4.7 million shares remained available for grant.

Share grant amounts, fair values, and fair value assumptions reflect all outstanding stock units and awards for both continuing and discontinued operations.

*Non-Vested Stock Units*

The Company grants both stock-settled and cash-settled non-vested stock units to key employees as determined by management and the Human Resources and Compensation Committee of the Board of Directors. The Company granted nominal stock units during the three months ended October 2, 2021 and September 26, 2020, respectively. The Company granted 0.2 million and 0.3 million of stock units during the nine months ended October 2, 2021 and September 26, 2020, respectively. The Company recognizes the cost of non-vested stock units on a straight-line basis over the requisite vesting period. Additionally, cash-settled non-vested stock units are recorded as a liability on the balance sheet and adjusted to fair value each reporting period through stock compensation expense. The Company recorded compensation expense for non-vested stock units of \$4.3 million and \$11.6 million during the three and nine months ended October 2, 2021, respectively, and recorded compensation expense for non-vested stock units of \$3.0 million and \$9.4 million during the three and nine months ended September 26, 2020, respectively.

As of October 2, 2021, there was \$15.3 million of total unrecognized compensation cost related to non-vested share-based compensation arrangements. The Company expects this cost to be recognized over a weighted average period of 1.2 years.

*Performance Awards*

The Company granted a nominal number of performance shares for the three months ended October 2, 2021 and September 26, 2020. The Company granted 0.2 million and 0.1 million performance shares to certain senior executives for the nine months ended October 2, 2021 and September 26, 2020, respectively. Performance share awards are based on three performance measures: a cash flow return on investment (CFROI) measure, an operating margin (OM) measure and a total shareholder return (TSR) modifier. Performance shares are earned based on a three-year performance period commencing at the beginning of the calendar year of each grant. The performance shares earned are then subject to a TSR modifier based on the

**Notes to Condensed Consolidated Financial Statements  
(unaudited)**

Company's stock returns measured against stock returns of a predefined comparator group over a three-year performance period. Additionally, in February 2021 and 2020, the Company granted 24,560 and 26,750 performance shares, respectively, to certain officers and certain senior managers based on the respective measures and performance periods described above but excluding the TSR modifier. The Company recorded compensation expense of \$3.5 million and \$11.0 million during the three and nine months ended October 2, 2021, respectively, and recorded compensation expense of \$7.8 million and \$10.2 million during the three and nine months ended September 26, 2020, respectively, based on projections of probable attainment of the performance measures and the projected TSR modifier used to determine the performance awards.

The fair value of the senior executives' performance share award grants with a TSR modifier for grants in 2021 and 2020 was \$91.44 and \$64.72, respectively. The fair values were estimated using the Monte Carlo valuation model, and incorporated the following assumptions:

	2021	2020
Risk-free interest rate	0.2 %	1.4 %
Dividend yield	1.2 %	1.5 %
Volatility factor	65.6 %	46.6 %
Expected life of award	2.9 years	2.9 years

The fair value of certain officers' and certain senior managers' performance awards granted based solely on the CFROI and OM performance factors was \$7.48 and \$61.91 in 2021 and 2020, respectively, which was equal to the stock price on the date of grant in 2021 and 2020, respectively, less the present value of expected dividend payments over the vesting period.

As of October 2, 2021, the Company had \$9.8 million of total unrecognized compensation cost related to performance awards. The Company expects this cost to be recognized over a weighted average period of 1.0 years.

*Director Awards*

The Company issues stock awards to non-employee directors in accordance with the terms and conditions determined by the Nominating and Corporate Governance Committee of the Board of Directors. A portion of each director's annual fee is paid in Brunswick common stock, the receipt of which may be deferred until a director retires from the Board of Directors. Each director may elect to have the remaining portion paid in cash, in Brunswick common stock distributed at the time of the award, or in deferred Brunswick common stock with a 20 percent premium.

The Company tests its intangible assets for impairment during the fourth quarter of each year, or whenever a significant change in events and circumstances (triggering event) occurs that indicates the fair value of intangible assets may be below their carrying values. The Company did not record an impairment charge during the nine months ended October 2, 2021 or September 26, 2020.

## Note 11 – Segment Data

### Reportable Segments

The Company's segments are defined by management's reporting structure and operating activities. The Company's reportable segments are the following:

*Propulsion.* The Propulsion segment manufactures and markets a full range of outboard, sterndrive, and inboard engines, as well as propulsion-related controls, rigging, and propellers. These products are principally sold directly to boat builders, including Brunswick's Boat segment, and through marine retail dealers worldwide. The Propulsion segment primarily markets under the Mercury, Mercury MerCruiser, Mariner, Mercury Racing, and Mercury Diesel brands. The segment's engine manufacturing plants are located mainly in the United States and China, along with a joint venture in Japan, with sales mainly to markets in the Americas, Europe, and Asia-Pacific.

*Parts & Accessories.* The Parts & Accessories (P&A) segment consists of the Engine Parts and Accessories and the Advanced Systems Group operating segments, which are aggregated and presented as a single reportable segment.

The P&A segment manufactures, markets, and supplies parts and accessories for both marine and non-marine markets. These products are designed for and sold mostly to aftermarket retailers, distributors, and distribution businesses, as well as original equipment manufacturers (including Brunswick brands). Branded parts and accessories include consumables, such as engine oils and lubricants, and are sold under the Mercury, Mercury Precision Parts, Quicksilver, and Seachoice brands. The P&A segment includes distribution businesses such as Land 'N' Sea, Kellogg Marine Supply, Lankhorst Taselaar, BLA, and Payne's Marine Group, which distribute third-party and Company products. These businesses are leading distributors of marine parts and accessories throughout North America, Europe, and Asia-Pacific. The P&A segment also includes businesses operating under the Acor, Attwood, BEP, Blue Sea Systems, CZone, Del City, Garelick, Lenco Marine, Marincos, Mastervolt, MotorGuide, ParkPower, Progressive Industries, ProMariner, RELiON, Whale, and ASG Connect brand names. Products include marine electronics and control systems, instruments, trolling motors, fuel systems, and electrical systems, as well as specialty vehicle, mobile, and transportation aftermarket products.

The P&A segment's manufacturing and distribution facilities are primarily located in North America, Europe, Australia, and New Zealand.

*Boat.* The Boat segment designs, manufactures and markets the following boat brands and products: Sea Ray sport boats and cruisers; Bayliner sport cruisers, runabouts, and Heyday wake boats; Boston Whaler fiberglass offshore boats; Lund fiberglass fishing boats; Crestliner, Cypress Cay, Harris, Lowe, Lund and Princecraft aluminum fishing, utility, pontoon boats, and deck boats; and Thunder Jet heavy-gauge aluminum boats. The Boat segment procures substantially all of its outboard engines, gasoline sterndrive engines, and gasoline inboard engines from Brunswick's Propulsion segment. The Boat segment also includes Brunswick boat brands based in Europe and Asia-Pacific, which include Quicksilver, Uttern, and Rayglass (including Protector and Legend). The Boat segment's products are manufactured mainly in the United States, Europe, Mexico, and Canada and sold through a global network of dealer and distributor locations, primarily in North America and Europe.

**Notes to Condensed Consolidated Financial Statements  
(unaudited)**

The Boat segment also includes Business Acceleration which, through innovative service models, shared access solutions, including the Freedom Boat Club business acquired in 2019, dealer services and emerging technology, aims to provide exceptional experiences to attract a wide range of customers to the marine industry and shape the future of boating.

The Company evaluates performance based on segment operating earnings. Segment operating earnings do not include the expenses of corporate administration, impairments or gains on the sale of equity investments, earnings from unconsolidated affiliates, other expenses and income of a non-operating nature, transaction financing charges, interest income and expense, and provisions or benefits for income taxes.

Corporate/Other results include items such as corporate staff and administrative costs, investments in technology solutions, business development and other growth-related expenses, including IT enhancements. Corporate/Other total assets consist of mainly cash, cash equivalents and investments in short-term marketable securities, restricted cash, income tax balances and investments in unconsolidated affiliates.

Segment eliminations adjust for sales between the Company's reportable segments and primarily relate to the sale of engines and parts and accessories to various boat brands, which are consummated at established arm's length transfer prices as the intersegment pricing for these engines and parts and accessories are based upon and consistent with selling prices to third party customers.

Information about the operations of Brunswick's reportable segments is set forth below:

**Note 13 – Income Taxes**

The Company recognized an income tax provision for the three and nine months ended October 2, 2021 of \$8.8 million and \$141.4 million, respectively, which included a net charge of \$2.0 million and \$5.2 million, respectively. The net charge of \$2.0 million is primarily associated with the change in estimates for prior period tax returns. The net charge of \$5.2 million includes the aforementioned change in estimates for prior period tax returns, along with branch restructuring charges offset by net excess tax benefits related to share-based compensation and valuation allowance adjustments. The Company recognized an income tax provision for the three and nine months ended September 26, 2020 of \$38.9 million and \$74.9 million, respectively, which included a net benefit of \$0.7 million and \$0.6 million, respectively. These net benefits primarily related to a change in unrecognized tax benefits and changes in the valuation allowance. The effective tax rate, which is calculated as the income tax provision as a percentage of earnings before income taxes, for the three and nine months ended October 2, 2021 was 21.2 percent and 22.3 percent, respectively. The effective tax rate for the three and nine months ended September 26, 2020 was 22.1 percent and 21.2 percent, respectively.

No deferred income taxes have been provided as of October 2, 2021, December 31, 2020 or September 26, 2020 on the applicable undistributed earnings of the non-U.S. subsidiaries where the indefinite reinvestment assertion has been applied. If at some future date these earnings cease to be indefinitely reinvested and are repatriated, the Company may be subject to additional U.S. income taxes and foreign withholding taxes on such amounts. The Company continues to provide deferred taxes, as required, on the undistributed net earnings of foreign subsidiaries and unconsolidated affiliates that are not deemed to be indefinitely reinvested in operations outside the United States.

As of October 2, 2021, December 31, 2020 and September 26, 2020, the Company had \$4.5 million, \$4.1 million and \$4.1 million of gross unrecognized tax benefits, including interest, respectively. The Company believes it is reasonably possible that the total amount of gross unrecognized tax benefits as of October 2, 2021 could decrease by approximately \$0.5 million in the next 12 months due to settlements with taxing authorities or lapses in the applicable statute of limitations. Due to the various jurisdictions in which the Company files tax returns and the uncertainty regarding the timing of the settlement of tax audits, it is possible that there could be significant changes in the amount of unrecognized tax benefits in 2021, but the amount cannot be estimated at this time.

**Notes to Condensed Consolidated Financial Statements**  
(unaudited)

The Company is regularly audited by federal, state and foreign tax authorities. The Internal Revenue Service (IRS) has completed its field examination and has issued its Revenue Agents Report through the 2014 tax year; and all open issues have been resolved. The Company is currently open to tax examinations by the IRS for the 2017 through 2019 tax years. Primarily as a result of filing amended returns, which were generated by the closing of federal income tax audits, the Company is still open to state and local tax audits in major tax jurisdictions dating back to the 2014 taxable year. The Company is no longer subject to income tax examinations by any major foreign tax jurisdiction for years prior to 2013.

**Note 14 – Debt**

The following table provides the changes in the Company's long-term debt for the nine months ended October 2, 2021:

(in millions)	Current maturities of long-term debt	Long-term debt	Total
Balance as of December 31, 2020	\$ 43.1	\$ 908.3	\$ 951.4
Proceeds from issuances of long-term debt	0.4	994.0	994.4
Repayments of long-term debt	(0.1)	(113.5)	(113.6)

<b>Balance as of October 2, 2021</b>	<b>\$ 43.2</b>	<b>\$ 1,787.7</b>	<b>\$ 1,830.9</b>

As of October 2, 2021, Brunswick was in compliance with the financial covenants associated with its debt.

*Bridge Facility*

In June 2021, the Company entered into a commitment letter with JPMorgan Chase Bank, N.A. ("JP Morgan") to obtain a 364-day senior unsecured bridge facility in an aggregate amount of principal not to exceed \$900.0 million (the "Bridge Facility"). The Company obtained the bridge commitment in anticipation of the acquisition of Navico, and the commitment was terminated in August 2021 when the Company obtained the Notes, as defined below. Refer to **Note 15 – Subsequent Events** for further details regarding the acquisition of Navico.

*2024 and 2031 Notes*

In August 2021, the Company issued aggregate principal amount of \$450.0 million of 0.850% Senior Notes due 2024 (the "2024 Notes") and \$550.0 million of 2.400% Senior Notes due 2031 (the "2031 Notes" and, together with the 2024 Notes, the "Notes") in a public offering, which resulted in aggregate net proceeds to the Company of \$992.9 million. Net proceeds from the offering were used for the acquisition of Navico and for general corporate purposes.

The 2024 Notes and 2031 Notes bear interest at rates of 0.850% and 2.400% per year, respectively, each payable semiannually in arrears on February 18 and August 18, and the first interest payment date will be February 18, 2022. The 2024 Notes will mature on August 18, 2024, and the 2031 Notes will mature on August 18, 2031.

The 2024 Notes are not redeemable prior to August 18, 2022. The Company may redeem the 2031 Notes, in whole or in part, at any time and from time to time prior to maturity. If the Company elects to redeem the 2031 Notes at any time prior to May 18, 2031 (the date that is three months prior to the maturity of the 2031 Notes), it will pay a "make-whole" redemption price set forth in the Fourth Supplemental Indenture to the Indenture dated as of October 3, 2018 ("Fourth Supplemental Indenture"). On or after August 18, 2022, in the case of the 2024 Notes, or May 18, 2031, in the case of the 2031 Notes, the Company may, at its option, redeem the 2024 Notes and the 2031 Notes, in whole or in part at any time and from time to time, at a redemption price equal to 100% of the principal amount thereof. In addition to the redemption price, the Company will pay accrued and unpaid interest to, but not including, the redemption date.

If the Company experiences a change of control triggering event with respect to a series of Notes, as defined in the Fourth Supplemental Indenture, each holder of such series of Notes may require the Company to repurchase some or all of its Notes at a price equal to 101% of their principal amount, plus accrued and unpaid interest to, but not including, the repurchase date. Pursuant to the terms of the Notes, the Company and its restricted subsidiaries will be subject to, among other covenants, restrictions on the incurrence of debt secured by liens on Principal Property (as defined in the Indenture dated as of October 3, 2018) or shares of capital stock of such restricted subsidiaries, entering into sale and leaseback transactions in respect of Principal Property and mergers or consolidations with another entity or sales, transfers or leases of the Company's properties and assets substantially as an entirety to another person.

### *Tender Offers*

In August 2021, the Company commenced tender offers to purchase for cash the 7.375% Debentures due 2023 ("2023 Debentures") and 7.125% Notes due 2027 ("2027 Notes"). The tender offers expired on August 10, 2021. At the expiration date, \$23.4 million of the \$103.1 million aggregate principal amount of outstanding 2023 Debentures and \$2.5 million of the \$163.3 million aggregate principal amount of outstanding 2027 Notes were validly tendered and not validly withdrawn. This amount excludes outstanding securities tendered pursuant to the guaranteed delivery procedures described in the tender offer documents, which remain subject to the holders' performance of the delivery requirements under such procedures. The Company recognized a loss on early extinguishment of debt of \$4.2 million related to the tender offers.

### *Credit Facility*

In July 2021, the Company entered into an Amended and Restated Credit Agreement (the "Amended Credit Facility") with certain wholly-owned subsidiaries of the Company as subsidiary borrowers and lenders as parties, and JPMorgan as administrative agent. The Amended Credit Facility amends and restates the Credit Facility dated as of March 21, 2011, as amended and restated through November 12, 2019. The Amended Credit Facility increases the revolving commitments to \$500.0 million, with the capacity to add up to \$100.0 million of additional revolving commitments, and amends the Credit Facility in certain respects, including, among other things:

- Extending the maturity date to July 16, 2026, with up to two one-year extensions available.
- Modifying the applicable interest rate margin range such that the highest applicable interest rate margin is reduced from 1.90 percent per annum to 1.70 percent per annum.
- Increasing the net cash offset for purposes of determining the leverage ratio from \$150.0 million to \$350.0 million.
- Modifying the leverage ratio maintenance covenant to allow for a 12-month increase of the maximum leverage ratio to 4.00 to 1.00 following the consummation of a Qualified Acquisition (as such term is defined in the Amended Credit Facility).
- Including "hardwired" LIBOR transition provisions substantially consistent with those published by the Alternative Reference Rates Committee.

As of October 2, 2021 there were no borrowings outstanding, and available borrowing capacity totaled \$97.2 million, net of \$2.8 million of letters of credit outstanding, under the Credit Facility. Refer to Note 16 in the Notes to Consolidated Financial Statements in the 2020 Form 10-K for details regarding Brunswick's Credit Facility.

### **Note 15 – Subsequent Events**

On October 4, 2021, the Company acquired all the issued and outstanding shares of Marine Innovations Group AS, known as "Navico," for \$1.094 billion net cash consideration. The Company used a combination of the Notes, as described in **Note 14 – Debt**, and cash on hand to fund the acquisition. Navico was a privately held global company based in Egersund, Norway, and is a global leader in marine electronics and sensors, including multi-function displays, fish finders, autopilots, sonar, radar, and cartography. The acquisition of Navico accelerates our ACES (Autonomy, Connectivity, Electrification, and Shared access) strategy and strengthens our ability to provide complete, innovative digital solutions to consumers and comprehensive, integrated system offerings to our original equipment manufacturer customers. The acquisition will be reported within the Company's Parts & Accessories segment. Given the recent date of the closing, a preliminary purchase price allocation has not yet been completed as of the date these financial statements were issued. Transaction costs associated with this acquisition of \$1.6 million and \$7.1 million were expensed as incurred within Selling, general and administrative expense during the three and nine months ended October 2, 2021, respectively.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Certain statements in Management's Discussion and Analysis of Financial Condition and Results of Operations of Brunswick Corporation (we, us, our) are forward-looking statements. Forward-looking statements are based on current expectations, estimates, and projections about our business and by their nature address matters that are, to different degrees, uncertain. Actual results may differ materially from expectations and projections as of the date of this filing due to various risks and uncertainties. For additional information regarding forward-looking statements, refer to *Forward-Looking Statements* below.

Certain statements in Management's Discussion and Analysis are based on non-GAAP financial measures. GAAP refers to generally accepted accounting principles in the United States. A "non-GAAP financial measure" is a numerical measure of a registrant's historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the consolidated statements of operations, balance sheets or statements of cash flows of the issuer; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. For example, the discussion of our cash flows includes an analysis of free cash flows and total liquidity; the discussion of our net sales includes net sales on a constant currency basis; the discussion of our earnings includes a presentation of operating earnings and operating margin excluding restructuring, exit and impairment charges, purchase accounting amortization, acquisition-related costs and other applicable charges and of diluted earnings per common share, as adjusted. Non-GAAP financial measures do not include operating and statistical measures.

We include non-GAAP financial measures in Management's Discussion and Analysis as management believes these measures and the information they provide are useful to investors because they permit investors to view our performance using the same tools that management uses to evaluate our ongoing business performance. In order to better align our reported results with the internal metrics management uses to evaluate business performance as well as to provide better comparisons to prior periods and peer data, non-GAAP measures exclude the impact of purchase accounting amortization.

We do not provide forward-looking guidance for certain financial measures on a GAAP basis because we are unable to predict certain items contained in the GAAP measures without unreasonable efforts. These items may include restructuring, exit and impairment costs, special tax items, acquisition-related costs, and certain other unusual adjustments.

### *Impact of COVID-19*

All global manufacturing and distribution facilities continue to focus on rigorously applying, evolving, and automating COVID-19 mitigation procedures, while continuing to ramp-up global production to meet unprecedented demand as consumers continue to take advantage of flexible work schedules allowing for more leisure time. The strong demand environment for our products experienced during the second half of 2020 has continued through 2021. COVID-19 related shut-downs have affected operations in the quarter, such as the temporary closure of a key manufacturing and distribution facility in New Zealand. Despite elevated production levels consistent with our plan, the continued surge in retail demand, market share gains, and supply chain challenges continue to drive historically low pipeline inventory levels, with third quarter pipeline inventory for our boat segment down to just over 10 weeks on hand.

We will continue to actively monitor the impact of COVID-19 and may take further actions that alter business operations as legally required or that we determine are in the best interests of our employees, customers, dealers, suppliers, and other stakeholders. The full extent of the impact of COVID-19 on our business, operations, and financial results will depend on evolving factors that we cannot accurately predict. Refer to **Item 1A. Risk Factors** in our 2020 Form 10-K for further information.

### *Discontinued Operations*

On June 27, 2019, we completed the sale of the Fitness business. This business, which was previously reported as our Fitness segment, is being reported as discontinued operations for all periods presented.

Our results for all periods presented, as discussed in Management's Discussion and Analysis, are presented on a continuing operations basis, unless otherwise noted. Refer to **Note 3 – Discontinued Operations** in the Notes to Condensed Consolidated Financial Statements for further information.

## Acquisitions

On October 4, 2021, the Company completed its acquisition of Navico for \$1.094 billion. Navico was a privately held global company based in Egersund, Norway, and is a global leader in marine electronics and sensors, including multi-function displays, fish finders, autopilots, sonar, radar, and cartography. Refer to **Note 15 - Subsequent Events** in the Notes to the Condensed Consolidated Financial Statements for further information.

### Overview

Net sales increased 16 percent during the third quarter of 2021 when compared with the third quarter of 2020, primarily attributable to strong global demand for marine products, market share gains, and increased pricing. In the Propulsion segment, strong demand for all product categories, together with market share gains, drove higher sales which continue to be enabled by increased production levels. In the Parts and Accessories segment, robust aftermarket demand driven by elevated boating participation and favorable late-season weather conditions in many areas resulted in higher sales, for all of our businesses. Boat segment sales also increased across all product categories. Our international net sales increased 19 percent and 17 percent in the third quarter on a GAAP and constant currency basis, respectively.

Net sales increased 39 percent during the first nine months of 2021, when compared with the first nine months of 2020, due to the same factors described above. Our international net sales increased 43 percent and 35 percent during the first nine months of 2021 on a GAAP and constant currency basis, respectively, with growth in all regions.

Operating earnings in the third quarter of 2021 were \$209.0 million and \$221.1 million on a GAAP and As Adjusted basis, respectively. This compares to operating earnings during the third quarter of 2020 of \$192.6 million and \$202.9 million on a GAAP and As Adjusted basis, respectively.

Operating earnings in the first nine months of 2021 were \$691.1 million and \$730.5 million on a GAAP and As Adjusted basis, respectively. This compares to operating earnings during the first nine months of 2020 of \$402.8 million and \$433.3 million on a GAAP and As Adjusted basis, respectively.

### Matters Affecting Comparability

*Changes in Foreign Currency Rates.* Percentage changes in net sales expressed in constant currency reflect the impact that changes in currency exchange rates had on comparisons of net sales. To determine this information, net sales transacted in currencies other than U.S. dollars have been translated to U.S. dollars using the average exchange rates that were in effect during the comparative period. The percentage change in net sales expressed on a constant currency basis better reflects the changes in the underlying business trends, excluding the impact of translation arising from foreign currency exchange rate fluctuations. Approximately 25 percent of our annual net sales are transacted in a currency other than the U.S. dollar. Our most material exposures include sales in Euros, Canadian dollars, Australian dollars and Chinese Yuan.

The table below summarizes the impact of changes in currency exchange rates on our net sales:

(in millions)	Three Months Ended				Nine Months Ended			
	Net Sales		2021 vs. 2020		Net Sales		2021 vs. 2020

GAAP operating margin	14.6%	15.6%			15.7%	12.6%		
Adjusted operating margin	15.5%	16.5%			16.5%	13.6%		

Net sales increased 16 percent and 39 percent during the third quarter and first nine months of 2021, respectively, when compared with the same prior year periods. Sales in each segment benefited from increased volume due to strong global demand for marine products, market share gains, and increased pricing. Refer to the Propulsion, Parts and Accessories, and Boat segments for further details on the drivers of net sales changes.

Gross margin percentage decreased 180 basis points in the third quarter of 2021 when compared with the same prior year period, with all segments benefiting from the factors increasing sales and favorable changes in foreign currency exchange rates, partially offset by increased input costs. Gross margin percentage increased 170 basis points in the first nine months of 2021 when compared with the same prior year period, with all segments benefiting from increased sales, favorable factory absorption from increased production, and favorable changes in foreign currency exchange rates.

Selling, general and administrative expense (SG&A) increased during the third quarter and first nine months of 2021 when compared with the same prior year periods. Excluding certain one-time items presented above, SG&A as a percentage of sales was lower in the third quarter and first nine months of 2021 compared with the same prior year periods, reflecting the strong increase in net sales, partially offset by increased spending on sales and marketing, ACES strategy, and other growth initiatives. SG&A as a percentage of sales was also impacted by higher variable compensation costs during the first nine months of 2021 when compared with the same prior year period. Research and development expense increased in 2021 versus 2020, reflecting continued investment in new products in all segments.

We did not recognize any restructuring, exit and impairment charges during the three months ended October 2, 2021, but recorded restructuring, exit and impairment charges of \$0.7 million during the nine months ended October 2, 2021. We recorded \$1.8 million and \$4.3 million of restructuring, exit and impairment charges during the three and nine months ended September 26, 2020, respectively. Refer to **Note 4 – Restructuring, Exit and Impairment Activities** in the Notes to Condensed Consolidated Financial Statements for further information.

We recorded Equity earnings of \$0.3 million and \$1.5 million in the three and nine months ended October 2, 2021, respectively, which were mainly related to our marine and technology-related joint ventures. This compares with Equity earnings of \$0.6 million and \$3.5 million in the three and nine months ended September 26, 2020, respectively.

We recognized \$(1.6) million and \$(4.4) million in Other expense, net in the three and nine months ended October 2, 2021, respectively. This compares with \$(1.2) million and \$(2.7) million recognized in Other expense, net in the three and nine

months ended September 26, 2020, respectively. Other expense, net primarily includes other postretirement benefit costs and remeasurement gains and losses resulting from changes in foreign currency rates.

Net interest expense was consistent for the three months ended October 2, 2021 when compared with the same prior year period. Net interest expense decreased for the nine months ended October 2, 2021 when compared with the same prior year period due to reduction in average daily debt outstanding, which was influenced by the timing of debt retirements and debt issuances. Refer to **Note 14 – Debt** in the Notes to Condensed Consolidated Financial Statements and Note 16 in the Notes to Consolidated Financial Statements in the 2020 Form 10-K.

We recognized a \$4.2 million loss on early extinguishment of debt for the three and nine months ended October 2, 2021 related to the tender of our 2023 Debentures and 2027 Notes. We also recognized \$4.0 million of transaction financing charges for the three and nine months ended October 2, 2021 related to the Bridge Facility that was secured in anticipation of the Navico acquisition. Refer to **Note 14 – Debt** in the Notes to Condensed Consolidated Financial Statements.

Income tax provision for the three and nine months ended October 2, 2021 was \$38.8 million and \$141.4 million, respectively, compared to \$38.9 million and \$74.9 million for the three and nine months ended September 26, 2020, respectively. The increase for the first nine months compared with the same prior year period is primarily due to increased earnings before income taxes.

The effective tax rate, which is calculated as the income tax provision as a percentage of earnings before income taxes, for the three and nine months ended October 2, 2021, was 21.2 percent and 22.3 percent, respectively. The effective tax rate for the three and nine months ended September 26, 2020 was 22.1 percent and 21.2 percent, respectively.

Due to the factors described in the preceding paragraphs, operating earnings, net earnings from continuing operations, and diluted earnings per common share from continuing operations increased during the third quarter and first nine months of 2021 when compared with the same prior year periods.

### Propulsion Segment

The following table sets forth Propulsion segment results for the three and nine months ended:

(in millions)	Three Months Ended		2021 vs. 2020		Nine Months Ended		2021 vs. 2020	
	Oct 2, 2021	Sep 26, 2020	\$ Change	% Change	Oct 2, 2021	Sep 26, 2020	\$ Change	% Change

Operating margin	17.9%	17.9%	—	bps	18.6%	14.8%	—	380 bps

bps = basis points

Propulsion segment net sales increased \$100.4 million, or 19 percent, in the third quarter of 2021 compared to the third quarter of 2020 due to the factors affecting all of our segments previously mentioned.

Propulsion segment net sales increased \$563.7 million, or 41 percent, in the first nine months of 2021 versus prior year as a result of the same factors described above.

International sales were 31 percent of the segment's net sales during the third quarter of 2021 and increased 13 percent from the prior year on a GAAP basis. On a constant currency basis, international net sales increased 10 percent, with increases across all regions except Asia-Pacific. International sales were 35 percent of the segment's net sales through the first nine months of 2021 and increased 35 percent from the prior year on a GAAP basis. On a constant currency basis, international sales increased 28 percent through the first nine months of 2021, with increases across all regions except Asia-Pacific.

Propulsion segment operating earnings in the third quarter of 2021 were \$112.5 million, an increase of 20 percent when compared to the third quarter of 2020, due to the benefits from more favorable sales mix and favorable absorption, in addition to the factors affecting all of our segments previously mentioned. Operating earnings for the first nine months of 2021 were \$359.1 million, an increase of 77 percent as a result of the same factors described above.

## Parts & Accessories Segment

The following table sets forth Parts and Accessories (P&A) segment results for the three and nine months ended:

(in millions)	Three Months Ended		2021 vs. 2020		Nine Months Ended		2021 vs. 2020

P&A segment net sales increased \$34.1 million, or 7 percent, in the third quarter of 2021 versus the third quarter of 2020 due to the factors impacting all of our segments previously mentioned.

P&A segment net sales increased \$354.5 million, or 31 percent, in the first nine months of 2021 versus prior year as a result of the same factors described above.

International sales were 29 percent of the P&A segment's net sales in the third quarter of 2021 and increased 15 percent year-over-year on a GAAP basis. On a constant currency basis, international net sales increased 12 percent, with increases across all regions. International sales were 30 percent of the P&A segment's net sales in the first nine months of 2021 and increased 46 percent year-over-year on a GAAP basis. On a constant currency basis, international net sales increased 36 percent through the first nine months of 2021, with increases across all regions.

P&A segment operating earnings were \$100.6 million in the third quarter of 2021, an increase of 1 percent when compared to the third quarter of 2020. Operating earnings, while positively impacted by the factors impacting all of our segments previously mentioned, were also negatively impacted by the closure of a key manufacturing and distribution location in New Zealand for a large portion of the quarter due to national COVID-19 lockdowns. Operating earnings for the first nine months of 2021 were \$306.9 million, an increase of 36 percent, as a result of the same factors described above.

**Boat Segment**

The following table sets forth Boat segment results for the three and nine months ended:

(in millions)	Three Months Ended		2021 vs. 2020		Nine Months Ended		2021 vs. 2020

Boat segment net sales increased \$73.4 million, or 22 percent, in the third quarter of 2021 versus the third quarter of 2020, driven by lower discount levels, as well as the factors affecting all of our segments previously mentioned.

Boat segment net sales increased \$400.6 million, or 46 percent, in the first nine months of 2021 versus prior year as a result of the same factors described above.

International sales were 24 percent of the segment's net sales in the third quarter of 2021 and increased 48 percent on a GAAP basis. On a constant currency basis, international sales increased 46 percent, with increases in Canada, Europe, Middle East and Africa offset by decreases in Rest-of-World and Asia-Pacific. International sales were 26 percent of the segment's net sales in the first nine months of 2021 and increased 63 percent on a GAAP basis. On a constant currency basis, international sales increased 56 percent through the first nine months of 2021, with increases across all regions.

Boat segment operating earnings in the third quarter of 2021 were \$24.9 million, a decrease of 12 percent when compared to the third quarter of 2020, as increased sales volume and pricing, together with lower retail discount levels, were more than offset by material inflation and higher costs due to manufacturing inefficiencies. Operating earnings in the first nine months of 2021 were \$109.9 million, an increase of \$74.5 million, as benefits from increased sales for the year more than offset the higher input costs and manufacturing inefficiencies previously mentioned.

**Corporate/Other**

Adjusted operating loss	\$ (28.9)	\$ (29.0)	\$ 0.1	(0.3)%	\$ (84.7)	\$ (58.0)	\$ (26.7)	46.0%

NM = not meaningful

Corporate operating expenses in the third quarter of 2021 were \$29.0 million, a decrease of \$0.7 million when compared to the third quarter of 2020.

Corporate operating expenses increased 37 percent in the first nine months of 2021 versus 2020, primarily due to an increase in variable compensation expense as well as an increase in spending on certain enterprise initiatives including ACES.

**Cash Flow, Liquidity and Capital Resources**

The following table sets forth an analysis of free cash flow for the nine months ended:

(in millions)	October 2, 2021	September 26, 2020
Net cash provided by operating activities of continuing operations	\$ 475.1	\$ 637.4
Net cash (used for) provided by:		
Plus: Capital expenditures	(180.2)	(120.6)
Plus: Proceeds from the sale of property, plant and equipment	5.6	2.0
Plus: Effect of exchange rate changes	(3.9)	1.2
Total free cash flow <sup>(A)</sup>	\$ 296.6	\$ 520.0

(A) We define "Free cash flow" as cash flow from operating and investing activities of continuing operations (excluding cash provided by or used for acquisitions, investments, purchases or sales/maturities of marketable securities and other investing activities) and the effect of exchange rate changes on cash and cash equivalents. Free cash flow is not intended as an alternative measure of cash flow from operations, as determined in accordance with GAAP in the United States. We use this financial measure both in presenting our results to shareholders and the investment community and in our internal evaluation and management of our businesses. Management believes that this financial measure and the information it provides are useful to investors because it permits investors to view our performance using the same tool that management uses to gauge progress in achieving its goals. Management believes that the non-GAAP financial measure "Free cash flow" is also useful to investors because it is an indication of cash flow that may be available to fund investments in future growth initiatives.

Our major sources of funds for capital investments, acquisitions, share repurchase programs and dividend payments are cash generated from operating activities, available cash and marketable securities balances, and borrowings. We evaluate potential acquisitions, divestitures and joint ventures in the ordinary course of business.

**2021 Cash Flow**

Net cash provided by operating activities of continuing operations in the first nine months of 2021 totaled \$475.1 million versus \$637.4 million in the comparable period of 2020. The decrease is primarily due to increased working capital, partially offset by higher net earnings during the first nine months of 2021. Working capital is defined as Accounts and notes receivable, Inventories and Prepaid expenses and other, net of Accounts payable and Accrued expenses as presented in the Condensed Consolidated Balance Sheets, excluding the impact of acquisitions and non-cash adjustments.

The primary drivers of net cash provided by operating activities of continuing operations in 2021 were net earnings, net of non-cash items, partially offset by the impact of increasing working capital, including increasing inventory levels to help ensure manufacturing continuity and rebuild pipeline inventories. Accounts and notes receivable increased \$110.6 million primarily

due to increased sales across all segments. Inventory increased \$235.8 million, driven by increases to support higher production volumes. Accounts payable increased \$114.6 million primarily due to timing of payments and higher inventory levels across all reportable segments. Accrued expenses increased \$22.1 million primarily driven by increased variable compensation.

Net cash used for investing activities of continuing operations was \$178.1 million, which primarily included capital expenditures of \$180.2 million, acquisitions of businesses of \$50.3 million, offset by sales of marketable securities of \$55.9 million. Our capital spending was focused on investments in new products and technologies as well as increased production capacity.

Net cash provided by financing activities was \$684.4 million and primarily related to net proceeds from issuances of long-term debt in connection with the Navico acquisition, offset by payments of long-term debt including current maturities, common stock repurchases, and cash dividends paid to common shareholders. Refer to **Note 14 – Debt** in the Notes to Condensed Consolidated Financial Statements for further details on our debt activity during the quarter.

#### **2020 Cash Flow**

Net cash provided by operating activities of continuing operations in the first nine months of 2020 totaled \$637.4 million. The primary drivers of cash provided by operating activities of continuing operations were net earnings net of non-cash expense items and favorable working capital usage. During the first nine months of 2020, Inventory decreased \$233.0 million primarily due to the strong increase in net sales in the period and production disruptions earlier in the year. Accounts and notes receivable increased \$76.0 million primarily due to the strong increase in net sales towards the end of the period. Accounts payable increased \$13.5 million primarily due to production increases, which was partially offset by timing of payments.

Net cash used for investing activities of continuing operations was \$116.1 million, which included capital expenditures of \$120.6 million. The Company's capital spending was focused on investments in new products and expediting existing capital projects given the available free cash flow during the year.

Net cash used for financing activities was \$190.9 million, primarily related to payments of long-term debt including current maturities, common stock repurchases and cash dividends paid to common shareholders. Refer to Note 16 - Debt in the Notes to Consolidated Financial Statements in the 2020 Form 10-K for further details on our 2020 debt activity.

#### **Liquidity and Capital Resources**

We view our highly liquid assets as of October 2, 2021, December 31, 2020 and September 26, 2020 as:

(in millions)	October 2, 2021	December 31, 2020	September 26, 2020
Cash and cash equivalents	\$ 1,486.4	\$ 519.6	\$ 650.4
Short-term investments in marketable securities	0.8	56.7	0.8
Total cash, cash equivalents and marketable securities	\$ 1,487.2	\$ 576.3	\$ 651.2

The following table sets forth an analysis of total liquidity as of October 2, 2021, December 31, 2020 and September 26, 2020:

(in millions)	October 2, 2021	December 31, 2020	September 26, 2020
Cash, cash equivalents and marketable securities	\$ 1,487.2	\$ 576.3	\$ 651.2
Amounts available under lending facility <sup>(A)</sup>	497.2	395.0	387.9
Total liquidity <sup>(B)</sup>	\$ 1,984.4	\$ 971.3	\$ 1,039.1

(A) See **Note 14 – Debt** in the Notes to Condensed Consolidated Financial Statements for further details on our lending facility.

(B) We define Total liquidity as Cash and cash equivalents and Short-term investments in marketable securities as presented in the Condensed Consolidated Balance Sheets, plus amounts available for borrowing under its lending facilities. Total liquidity is not intended as an alternative measure to Cash and cash equivalents and Short-term investments in marketable securities as determined in accordance with GAAP in the United States. We use this financial measure both in presenting our results to shareholders and the investment community and in our internal evaluation and management of our businesses. Management believes that this financial measure and the information it provides are useful to investors because it permits investors to view our performance using the same metric that management uses to gauge progress in achieving our goals. Management believes that the non-GAAP financial measure “Total liquidity” is also useful to investors because it is an indication of our available highly liquid assets and immediate sources of financing.

Cash, cash equivalents and marketable securities totaled \$1,487.2 million as of October 2, 2021, an increase of \$910.9 million from \$576.3 million as of December 31, 2020, and an increase of \$836.0 million from \$651.2 million as of September 26, 2020. Total debt as of October 2, 2021, December 31, 2020 and September 26, 2020 was \$1,830.9 million, \$951.4 million and \$1,061.6 million, respectively. Our debt-to-capitalization ratio was 49.7 percent as of October 2, 2021, an increase from 38.7 percent as of December 31, 2020 and from 42.1 percent as of September 26, 2020.

We believe that we have adequate sources of liquidity to meet our short-term (for at least the next twelve months) and foreseeable long-term needs.

There was no borrowing activity under the Credit Facility during the first nine months of 2021, and we did not have any borrowings outstanding as of October 2, 2021. Available borrowing capacity totaled \$497.2 million, net of \$2.8 million of letters of credit outstanding under the Credit Facility. During the first nine months of 2021, there was no borrowing activity under our unsecured commercial paper program (CP Program), pursuant to which we may issue short-term, unsecured commercial paper notes. Refer to **Note 14 – Debt** in the Notes to Condensed Consolidated Financial Statements and Note 16 - Debt in the Notes to Consolidated Financial Statements in the 2020 Form 10-K for further details.

The level of borrowing capacity under our Credit Facility and CP Program is limited by both a leverage and interest coverage test. These covenants also pertain to termination provisions included in our wholesale financing joint venture arrangements with Wells Fargo Distribution Finance. Based on our anticipated earnings generation throughout the year, we expect to maintain sufficient cushion against the existing debt covenants.

To finance the acquisition of Navico, we issued the Notes for aggregate net proceeds of \$992.9 million. We also tendered our 2023 Debentures and 2027 Notes in the process, resulting in the retirement of \$25 million of debt and a loss on early extinguishment of debt of \$4.2 million. Refer to **Note 14 – Debt** and **Note 15 – Subsequent Events** in the Notes to Condensed Consolidated Financial Statements for further details.

### ***2021 Capital Strategy***

Our capital strategy assumptions have not materially changed since last quarter. The Notes issued in connection with the Navico acquisition create slightly higher interest expense for the year. We have also increased the amount of long-term debt obligations we plan to retire to approximately \$125 million, in part as a result of the tender offers described above.

We plan to continue our systematic approach to share repurchases. With share repurchases of \$98.7 million completed during the first nine months of 2021, we anticipate completing approximately \$120 million of repurchases in 2021. Additionally, we expect capital expenditures to be in the range of approximately \$270 million to \$300 million intended to support, and in some cases accelerate, growth initiatives throughout our organization. This spending will be directed to new product investments in all of our businesses, cost reduction and automation projects, and select additional capacity-related initiatives to support demand and future growth, primarily in the Propulsion business.

These actions follow the increase of our dividend to 33.5 cents a share, a 24 percent dividend increase that was approved by the Board of Directors in April 2021, as we continue to balance increases in shareholder return and investment in growth initiatives.

### ***Financing Joint Venture***

On March 10, 2021, through our Brunswick Financial Services Corporation subsidiary, we entered into an amended and restated joint venture agreement with Wells Fargo Commercial Distribution Finance to extend the term of our financial services joint venture, Brunswick Acceptance Company, LLC (BAC), through December 31, 2025. The amendment did not otherwise materially change the terms of the agreement. BAC is detailed further in the 2020 Form 10-K.

### ***Off-Balance Sheet Arrangements and Contractual Obligations***

Our off-balance sheet arrangements and contractual obligations as of December 31, 2020 are detailed in the 2020 Form 10-K. There have been no material changes in these arrangements and obligations outside the ordinary course of business since December 31, 2020.

### ***Environmental Regulation***

There were no material changes in our environmental regulatory requirements since the filing of our 2020 Form 10-K.

### ***Critical Accounting Policies***

There were no further material changes in our critical accounting policies since the filing of our 2020 Form 10-K.

As discussed in the 2020 Form 10-K, the preparation of the consolidated financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the amount of reported assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and revenues and expenses during the periods reported. Actual results may differ from those estimates.

### ***Recent Accounting Pronouncements***

Recent accounting pronouncements that have been adopted during the three months ended October 2, 2021, or will be adopted in future periods, are included in **Note 1 – Significant Accounting Policies** in the Notes to Condensed Consolidated Financial Statements.

### ***Forward-Looking Statements***

Certain statements in this Quarterly Report on Form 10-Q are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on current expectations, estimates, and projections about Brunswick's business and by their nature address matters that are, to different degrees, uncertain. Words such as "may," "could," "should," "expect," "anticipate," "project," "position," "intend," "target," "plan," "seek," "estimate," "believe," "predict," "outlook," and similar expressions are intended to identify forward-looking statements. Forward-looking statements are not guarantees of future performance and involve certain risks and uncertainties that may cause actual results to differ materially from expectations as of the date of this quarterly report. These risks include, but are not limited to: the effect of

adverse general economic conditions, including the amount of disposable income consumers have available for discretionary spending; changes in currency exchange rates; fiscal policy concerns; adverse economic, credit, and capital market conditions; higher energy and fuel costs; competitive pricing pressures; the coronavirus (COVID-19) pandemic and the emergence of variant strains; managing our manufacturing footprint; adverse weather conditions, climate change events and other catastrophic event risks; international business risks; our ability to develop new and innovative products and services at a competitive price; our ability to meet demand in a rapidly changing environment; loss of key customers; actual or anticipated increases in costs, disruptions of supply, or defects in raw materials, parts, or components we purchase from third parties, including as a result of pressures due to the pandemic; supplier manufacturing constraints, increased demand for shipping carriers, and transportation disruptions; absorbing fixed costs in production; risks associated with joint ventures that do not operate solely for our benefit; our ability to successfully implement our strategic plan and growth initiatives; our ability to integrate acquisitions, including Navico, and the risk for associated disruption to our business; the risk that unexpected costs will be incurred in connection with the Navico transaction or the possibility that the expected synergies and value creation from the transaction will not be realized or will not be realized within the expected time period; attracting and retaining skilled labor, implementing succession plans for key leadership, and executing organizational and leadership changes; our ability to identify, complete, and integrate targeted acquisitions; the risk that strategic divestitures will not provide business benefits; maintaining effective distribution; adequate financing access for dealers and customers; requirements for us to repurchase inventory; inventory reductions by dealers, retailers, or independent boat builders; risks related to the Freedom Boat Club franchise business model; outages, breaches, or other cybersecurity events regarding our technology systems, which could affect manufacturing and business operations and could result in lost or stolen information and associated remediation costs; our ability to protect our brands and intellectual property; changes to U.S. trade policy and tariffs; any impairment to the value of goodwill and other assets; product liability, warranty, and other claims risks; legal and regulatory compliance, including increased costs, fines, and reputational risks; changes in income tax legislation or enforcement; managing our share repurchases; and risks associated with certain divisive shareholder activist actions.

Additional risk factors are included in the 2020 Form 10-K and subsequent Quarterly Reports on Form 10-Q. Forward-looking statements speak only as of the date on which they are made, and Brunswick does not undertake any obligation to update them to reflect events or circumstances after the date of this Quarterly Report on Form 10-Q.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

We are exposed to market risk from changes in foreign currency exchange rates, interest rates and commodity prices. We enter into various hedging transactions to mitigate these risks in accordance with guidelines established by our management. We do not use financial instruments for trading or speculative purposes. Our risk management objectives are described in **Note 6 – Financial Instruments** in the Notes to Condensed Consolidated Financial Statements and Note 14 in the Notes to Consolidated Financial Statements in the 2020 Form 10-K.

There have been no significant changes to our market risk since December 31, 2020. For a discussion of exposure to market risk, refer to Part II, Item 7A – Quantitative and Qualitative Disclosures about Market Risk, set forth in the 2020 Form 10-K.

### **Item 4. Controls and Procedures**

Under the supervision and with the participation of our management, including the Chief Executive Officer and the Chief Financial Officer (our principal executive officer and principal financial officer, respectively), we have evaluated our disclosure controls and procedures (as defined in Securities Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this Quarterly Report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective. There were no changes in our internal control over financial reporting during the fiscal quarter covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II – OTHER INFORMATION****Item 1A. Risk Factors**

Brunswick's operations and financial results are subject to various risks and uncertainties that could adversely affect the Company's business, financial condition, results of operations, cash flows, and the trading price of Brunswick's common stock. There have been no material changes to the risk factors previously disclosed in the 2020 Form 10-K and subsequent Quarterly Reports on Form 10-Q, other than as set forth below.

*The inability to successfully integrate new acquisitions, including Navico, could negatively impact financial results.*

On October 4, 2021, Brunswick acquired Navico, a global leader in marine electronics and sensors. Acquisitions pose risks, such as our ability to project and evaluate market demand; maximize potential synergies and cost savings; make accurate accounting estimates; and achieve anticipated business objectives. The Navico acquisition and other recent or future acquisitions present these and other integration risks, including:

- disruptions in core, adjacent, or acquired businesses that could make it more difficult to maintain business and operational relationships, including customer and supplier relationships;
- the possibility that the expected synergies and value creation will not be realized or will not be realized within the expected time period;
- the risk that unexpected costs will be incurred;
- diversion of management attention; and
- difficulties retaining employees.

If we fail to timely and successfully integrate new businesses, including Navico, into existing operations, we may see higher production costs, lost sales, or otherwise diminished earnings and financial results.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

On July 20, 2021, our Board of Directors expanded our share repurchase authorization for an additional amount of \$350 million, which was in addition to the prior authorization of \$600 million from July 2019. Such repurchase authorizations do not have an expiration date. During the first nine months of 2021, we repurchased approximately \$98.7 million of our common stock and the remaining authorization was \$367.8 million.

We repurchased the following shares of common stock during the three months ended October 2, 2021:

<b>Period</b>	<b>Total Number of Shares Purchased</b>	<b>Weighted Average Price Paid per Share</b>	<b>Total Number of Shares Purchased as Part of Publicly Announced Program</b>	<b>Maximum Amount of Dollars that May Yet Be Used to Purchase Shares Under the Program</b>
July 4 to July 31	81,807	\$ 97.79	81,807	
August 1 to August 28	112,379	101.69	112,379	
August 29 to October 2	239,748	97.62	239,748	
<b>Total</b>	<b>433,934</b>	<b>\$ 98.71</b>	<b>433,934</b>	<b>\$ 367,808,363</b>
